

SAVE THE BAY®

NARRAGANSETT BAY

Join the City and Save The Bay to learn about efforts to improve the water quality of Sabin Point, the upper Bay and the Runnins River including:

- Treatment of stormwater runoff from residential neighborhoods to reduce nitrogen, phosphorus, and bacteria flowing into our local waters.
- Environmentally sound landscaping techniques for homeowners.

Sabin Point sand filter treats stormwater runoff before flowing into the Bay

A presentation will be held on **Wednesday, April 30, 2025 at 6:00 pm at the Riverside Library community room, 475 Bullocks Point Avenue, Riverside, RI 02915.**
