FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the East Providence City Council City of East Providence, Rhode Island

Report on the Audit of the Financial Statements *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of East Providence, Rhode Island, as of and for the year ended October 31, 2023, and the related notes to the financial statements, which collectively comprise the City of East Providence, Rhode Island's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of East Providence, Rhode Island, as of October 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of East Providence, Rhode Island and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter – Prior Period Adjustments

As discussed in Note 13 to the financial statements, the City of East Providence, Rhode Island, restated beginning fund balance of American Rescue Plan Act Fund and governmental activities for a correction of an error. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Honorable Mayor and
Members of the East providence City Council
City of East Providence, Rhode Island

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of East Providence, Rhode Island's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of City of East Providence, Rhode Island's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about City of East Providence, Rhode Island's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Honorable Mayor and Members of the East providence City Council City of East Providence, Rhode Island

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of East Providence. Rhode Island's basic financial statements. The general fund combining financial statements, schedules of revenues and other financing sources budgetary basis, schedules of expenditures and other financing sources - budgetary basis, schedules of property taxes levied, collected and outstanding, nonmajor governmental funds combining financial statements and internal service funds combining financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the general fund combining financial statements, schedules of revenues and other financing sources - budgetary basis, schedules of expenditures and other financing sources - budgetary basis, schedules of property taxes levied, collected and outstanding, nonmajor governmental funds combining financial statements and internal service funds combining financial statements is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Honorable Mayor and Members of the East providence City Council City of East Providence, Rhode Island

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 10, 2025, on our consideration of the City of East Providence, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of East Providence, Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of East Providence, Rhode Island's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

Cranston, Rhode Island February 10, 2025

As management of the City of East Providence, Rhode Island (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended October 31, 2023.

FINANCIAL HIGHLIGHTS

- The liabilities and deferred inflows of resources of the City's governmental activities exceeded
 its assets and deferred outflows of resources at the close of the most recent fiscal year by
 \$52,919,540 (net position). Business-type activity assets and deferred outflows exceeded
 liabilities by \$42,697,872 at year end. On a government-wide basis, liabilities and deferred
 inflows exceeded assets and deferred outflows by \$10,221,668.
- The City's total net position increased by \$10,719,076. This was primarily due to an increase in property tax revenues and favorable operations in the general fund.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of (\$52,919,540), an increase of \$7,291,716 in comparison with the prior year.
- At the end of the fiscal year, the unassigned fund balance for the General Fund was \$23,898,775 or 16.6% of total General Fund expenditures and transfers out.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and deferred outflows of resources less liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

GOVERNMENT-WIDE FINANCIAL STATEMENTS (CONTINUED)

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include legislative, judicial, and administrative; financial administration; assessor's office; public safety; public works; human resources; miscellaneous; planning and assessment board' library; education; other; interest on long-term debt; and debt issuance costs. The business-type activities of the City include both water and sewer operations.

The government-wide financial statements can be found on Exhibits I and II.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

GOVERNMENTAL FUNDS

Are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds and similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains more than 200 individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund, School Unrestricted Fund, Capital Projects Fund, High School Construction Fund, Middle School Construction Fund and American Rescue Plan Act Fund. Data from the remaining governmental funds are combined into single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the form of combining statements later in this report. The basic governmental fund financial statements can be found on pages 18 through 21 of this report. Details of the combined governmental funds can be found on pages 109 through 162.

PROPRIETARY FUNDS

The City maintains one type of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water operations and its sewer operations.

PROPRIETARY FUNDS (CONTINUED)

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statement provides information for the water operations and for the sewer operations, which are considered to be major funds of the City. The basic proprietary fund financial statements can be found on Exhibits V, VI, and VII.

FIDUCIARY FUNDS

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on Exhibits VIII and IX.

NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28 through 88.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension and other post-employment benefits to its employees and the budgetary information for the General Fund and School Unrestricted Fund.

The individual and combining statements and other schedules referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the City, liabilities and deferred inflows of resources exceeded assets and deferred outflows by \$10,221,668 at the close of the fiscal year.

Deferred Inflows of Resources	23,317,919	17,747,883	333,880	276,423	23,651,799	18,024,306		
Net Position:								
Net Investment in Capital Assets	112,071,954	97,284,735	34,218,916	34,601,030	146,290,870	131,885,765		
Restricted	48,904	48,002	-	-	48,904	48,002		
Unrestricted	(165,040,398)	(146,554,260)	8,478,956	4,669,482	(156,561,442)	(141,884,778)		
Total Net Position	\$ (52,919,540)	\$ (49,221,523)	\$ 42,697,872	\$ 39,270,512	\$ (10,221,668)	\$ (9,951,011)		

The largest portion of the City's net position, \$146,290,870, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, infrastructure) less any related debt and related liabilities used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental Activities

Already noted was the statement of activities' purpose in presenting information on how the City's net position changed during the most recent fiscal year. A summary of changes in net position follows. For the fiscal year, net position increased by \$7,291,716. This was primarily due to an increase in property tax revenues and favorable operations in the general fund.

The reader should remember that the basis of accounting used in the government-wide statement of activities excludes capital expenditures, while its revenues include general taxes whose primary purpose is for the construction of those very assets or their related debt service.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED) Governmental Activities (Continued)

Revenues

Governmental activities revenues totaled \$233,731,233 for the fiscal year. Property taxes are the largest revenue source for the City and represent 47.4% of governmental revenues. Operating grants and contributions revenues are the City's second largest revenue. Operating grants and contributions revenues include grants for education, general government, libraries, and various other functions.

Operating grants and contributions revenues account for 43.1% of governmental revenues for the year. Charges for services accounts for 5.2% of governmental revenues and includes revenues from various sources including but not limited to police details, fire rescue services, property tax interest and liens, and permits and recording fees. Miscellaneous revenues represent 1.1% of governmental revenues. Investment income accounts for 0.8%. Capital grants and contributions account for 2.4% of governmental revenues.

Expenses

Governmental activities expenses totaled \$226,439,517 for the fiscal year. Of the expenditures, 54.1% was for education. Public safety expenses amounted to 27.3%. General government expenses were 7.4%. Public works were 5.3%. Interest expense was 2.6%. Sanitation expenses were 1.5%. Library expenses were 1.3%. Park and recreation expenses were 0.5%.

Business-Type Activities

Revenues

General revenues do not support the City's business-type activities; thus, the largest source of revenues comes from charges for services and operating grants. Of the \$25,779,125 in revenues from the Water Fund and the WPC Fund, 97.5% comes from charges for services. Investment and miscellaneous income make up the final 2.5% of revenues for the City's business activities.

Expenses

Business-type expenses totaled \$22,351,765, \$8,871,207 and \$13,480,558 for the Water Fund and the WPC Fund, respectively, for the fiscal year ended October 31, 2023.

GOVERNMENTAL FUNDS

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City 's financing requirements. In particular, the unassigned fund balance of \$15,929,955 may serve as a valuable assessment of a government's net resources available for spending at the end of the fiscal year. As of October 31, 2023, the City's governmental funds reported combined ending fund balances of \$65,367,665.

The General Fund is the chief operating fund of the City, excluding its school department. As of October 31, 2023, the total fund balance of the general fund was \$24,017,960 of which \$23,898,775 was unassigned. The City's General Fund also has \$119,185 of nonspendable fund balance as of October 31, 2023.

GOVERNMENTAL FUNDS (CONTINUED)

The fund balance of the General Fund increased by \$3,837,107 in fiscal year 2023. Actual revenues fell short of budgeted revenues by \$1,860,240 (see RSI-1). Property tax revenues fell short of budgetary estimates by \$2,153,959 and departmental revenues fell short of budgetary estimates by \$171,785. Total expenditures were \$3,912,778, less than appropriated amounts (see RSI-1). The largest portion of this was public works coming in \$1,326,285 under the budgeted amount.

The School Unrestricted Fund is the principal operating fund of the school department. Revenues are derived principally from City appropriations and state aid supplemented by certain miscellaneous revenues, principally federal Medicaid reimbursements. Expenditures for education totaled \$90,001,452 including a state on-behalf payment to pension funds of \$4,782,471 on behalf of the school department.

The Capital Projects fund balance decreased \$3,499,331.

The High School Construction fund balance decreased \$5,742,444.

The Middle School Construction fund balance decreased \$6,912,817.

PROPRIETARY FUNDS

The City's proprietary funds provide the same information found in the government-wide financial statements, but in more detail. The City's enterprise funds posted an overall increase in net position of \$3,427,360 for the fiscal year. This was primarily due to less than anticipated capital expenses.

WATER FUND

Unrestricted net position of the Water Control Fund at the end of the year amounted to \$6,043,887.

WPC FUND

Unrestricted net position of the Sewer Fund at the end of the year amounted to \$2,513,761.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets for its governmental and business-type activities at year-end amounts to \$382,619,863 net of accumulated depreciation. This investment in capital assets includes land, buildings, building improvements, vehicles, equipment, infrastructure, and construction in progress. The increase in the City's net investment in capital assets for the current fiscal year was \$12,006,315 as depreciation of \$11,926,136 was exceeded by capital asset additions of \$23,932,451.

Major additions to the City's capital assets related to its governmental fund activities realized during the year included approximately \$9.8 million of construction in progress relative to the new middle school project and \$5.3 million of construction in progress relative to the new high school project.

Additional information on the City's capital assets can be found on pages 46 through 48.

LONG-TERM DEBT

At the end of the current fiscal year, the City has total bonds and notes outstanding of \$236,526,993. State statutes limit the amount of general obligation debt a governmental entity may issue to three percent of its total equalized valuation.

City of East Providence, Rhode Island Bonds and Notes Payable October 31, 2023 and 2022

	Governmen	tal Activities	Business-Ty	pe Activities	Total

The City currently has an "AA" rating from Standard and Poor's and an "A1" rating from Moody's for general obligation debt.

LONG-TERM DEBT (CONTINUED)

The current debt limitation for the City is approximately \$156,472,807 based on a net assessed value of \$5,215,760,247 at December 31, 2022, which significantly exceeds the City's current outstanding general obligation debt subject to the limitation.

Additional information on the City's long-term debt can be found on pages 49 through 52.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director's Office, East Providence City Hall, 145 Taunton Avenue, East Providence, Rhode Island, 02914.

CITY OF EAST PROVIDENCE, RHODE ISLAND RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION OCTOBER 31, 2023

Reconciliation of the Balance Sheet - Governmental Funds

to the Statement of Net Position:

Amounts reported for governmental activities in the statement of net position (Exhibit I) are different because of the following:

Fund balances - total governmental funds (Exhibit III)

\$ 65,367,665

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:

Governmental Capital Assets Less: Accumulated Depreciation Net Capital Assets \$ 443,608,758 (146,729,836)

296,878,922

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds:

Property tax receivables greater than 60 days	28,178,878
Interest receivable on property taxes	3,100,992
Net pension asset	16,193,129
Deferred charge on refunding	164,137
Deferred outflows related to OPEB	8,606,840
Deferred outflows related to pension	25,829,470

Long-term liabilities and deferred inflows of resources are not due and payable in the current period and, therefore, are not reported in the funds:

Bonds and notes payable	(184,801,104)
Unamortized premium on bonds payable	(23,895,948)
Interest payable on bonds and notes	(1,101,290)
Notes payable	(203,864)
Accrued compensated absences	(7,839,195)
Net OPEB liability	(21,987,871)
Net pension liability	(237,758,482)
Deferred inflows related to OPEB	(6,836,280)
Deferred inflows related to pension	(12,815,539)

Net Position of Governmental Activities (Exhibit I) \$ (52,919,540)

CITY OF EAST PROVIDENCE, RHODE ISLAND RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED OCTOBER 31, 2023

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because of the following:

are different because of the following.	
Net change in fund balances - total governmental funds (Exhibit IV)	\$ (14,863,157)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and is reported as depreciation expense.	
Capital outlay Depreciation expense Loss on disposal of assets	23,696,501 (9,177,256) (28,399)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
Property taxes collected after 60 days Intergovernmental receivable - accrual basis change Change in interest receivable on property taxes Change in net pension asset Change in deferred outflows related to OPEB Change in deferred outflows related to pension	748,604 (612,687) 359,894 1,704,548 (1,049,244) (1,135,645)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Bond principal payments Notes payable payments Amortization of deferred charge on refunding Amortization of premiums	9,121,763 439,821 24,125 1,348,969
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:	
Change in compensated absences Change in OPEB obligation Change in net pension liability Change in deferred inflows related to OPEB Change in deferred inflows related to pension	 (339,829) 1,670,525 (105,911) 346,712 (4,857,618)
Change in Net Position of Governmental Activities (Exhibit II)	\$ 7,291,716

NOTES TO FINANCIAL STATEMENTS OCTOBER 31, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of East Providence (the City) was incorporated in 1862. The City covers 16.61 square miles located in southeastern New England. The City is the fifth largest city in the State of Rhode Island and Providence Plantations and is approximately 60 miles from Boston and three and a half hours from New York by automobile or rail.

The financial statements of the City have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the City's financial statements.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the City applied the criteria prescribed by GASB Statement No. 61. Under GASB Statement No. 61, a legally separate entity is required to be included as a component unit if it is fiscally dependent upon the primary government and there is a financial benefit or burden relationship present. The primary government is financially accountable if it appoints the voting majority of the organization's governing board and 1) it is able to impose its will on that organization or 2) there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the primary government. A potential component unit has a financial benefit or burden relationship with the primary government if, for example, any one of the following conditions exists:

- The primary government is legally entitled to or can otherwise access the organization's resources.
- The primary government is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization.
- The primary government is obligated in some manner for the debt of the organization.

The following entity was considered for classification as a component unit for fiscal year 2023:

East Providence School Department

Although the East Providence School Department meets certain criteria of the tests listed above, this entity is not deemed to have separate legal status apart from the City and the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. As a result, the financial data of the East Providence School Department has been included.

CITY OF EAST PROVIDENCE, RHODE ISLAND NOTES TO FINANCIAL STATEMENTS OCTOBER 31, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Report Entity (Continued)

A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The City does not have any component units.

B. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and transit functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

C. Basis of Presentation – Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, deferred outflows of resources, liabilities, deferred inflow of resources, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. Major individual governmental funds and enterprise funds are reported as separate columns in the fund financial statements. A fund is considered a major fund if it is the primary operating fund of the City or meets the following criteria:

- Total assets and deferred outflow of resources, liabilities, and deferred inflow of resources, revenues, or expenditures of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category type, and
- Total assets and deferred outflow of resources, liabilities, and deferred inflow of resources, revenues, or expenditures of the individual, governmental fund, or enterprise funds are at least 5% of the corresponding total for all governmental and enterprise funds combined.

CITY OF EAST PROVIDENCE, RHODE ISLAND NOTES TO FINANCIAL STATEMENTS OCTOBER 31, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation – Fund Financial Statements (Continued)

The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *School Unrestricted Fund* accounts for the budgeted resources devoted to financing the general operations of the School Department.

The *Capital Projects Fund* accounts for the financial revenues to be used for major capital asset construction and/or purchases.

The *High School Construction Fund* accounts for the financial resources and related expenditures of the high school construction project.

The *Middle School Construction Fund* accounts for the financial resources and related expenditures of the middle school construction project.

The ARPA Fund accounts for the activities related to funds received from the American Rescue Plan Act.

The City reports the following major proprietary funds:

The *Water Fund* is a proprietary (enterprise) fund used to account for water use fees and expenses associated with providing water services to city residents.

The WPC Fund is a proprietary (enterprise) fund used to account for sewer use fees and expenses associated with providing wastewater services to city residents.

Additionally, the City reports the following fund types:

The Pension and Other Post-Employment Benefit Trust Funds are used to account for the funding and payment of pension benefits provided to City police officers and firefighters and to account for funding of future other postemployment benefits such as health, dental and life insurance for the City's and School Department's retirees.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation – Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period for taxes and grants and within six months of the end of the current fiscal period for government issued aid. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus and Basis of Accounting (Continued)

Property taxes, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary, pension trust fund and other postemployment benefit trust funds are reported using the economic resources measurement focus and the accrual basis of accounting.

E. Cash and Cash Equivalents

Cash and cash equivalents are carried at cost. Cash equivalents include amounts invested in certificate of deposits as management believes that these certificates can be accessed at any point in time. Substantially, all of the City's cash and cash equivalents are held in public deposit institutions.

Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public institutions are required to insure accounts which hold public funds in excess of the \$250,000 which is guaranteed by Federal Deposit Insurance Corporation. At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

State statutes authorize governments to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

F. Investments

Investments are recorded at fair value. Unrealized gains and losses from changes in fair value are recognized as investment income.

The pension funds allow for investments in certain alternative investments. Alternative investments may include private equity partnerships; infrastructure limited partnerships, hedge and absolute return funds for which there may be no ready market to determine fair value. These investments are valued using the most recent valuation available from the external fund manager. These estimated values do not necessarily represent the amounts that will ultimately be realized upon the disposition of those assets, which may be materially higher or lower than values determined if a ready market for the securities existed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Property Taxes

The City is permitted by state law to levy property taxes. The City's fiscal 2023 property taxes were levied in May 2023 based on an assessed valuation as of December 31, 2022. Taxes were due July 3, 2023, or may be paid quarterly, without penalty, at the taxpayer's option. Failure to mail payments by due dates will result in a lien on taxpayer's property.

The City offers a 1.5% discount to taxpayers who pay their assessment in full on or before the due date of the first quarterly installment. A 12% penalty is imposed for all taxes in an overdue status.

Property tax revenue is recognized in accordance with Section P70 "Property Taxes" of the Codification of Governmental Accounting and Reporting Standards which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due, and receivable within the current period and collected no later than 60 days after the close of the current period. Property taxes levied in May 2023 for the current year and other delinquent balances are recorded as receivables.

H. Other Receivables

Other receivables include amounts due from other governments and individuals for services provided by the City. Receivables are recorded, and revenues recognized as earned or as specific program expenditures/expenses are incurred. Allowances are recorded when appropriate.

I. Due From/To Other Funds

During the course of its operations, the City has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of year-end, balances of interfund amounts receivable or payable have been recorded in the fund financial statements. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

J. Prepaid Items

Prepaid items are accounted for under the allocation method whereby a prepaid asset is established at the date of payment and subsequently amortized over the accounting periods expected to benefit from the initial payment. Prepaid items recorded in the governmental type fund do not reflect current appropriate resources and, as such, an equivalent portion of the fund balance is reported as nonspendable.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Unbilled Services Receivable

WPC and water revenues are recorded when earned. Residential customers are billed quarterly. The estimated value of services provided, but unbilled, at year-end has been included in the accompanying financial statements.

L. Inventory

Inventory is maintained on a perpetual system and is stated at cost. The first in, first out method of inventory valuation is used. Inventory is generally recorded as expenditures/expenses when consumed.

M. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than a \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital asset, as applicable.

Land and construction-in-progress are not depreciated. Property, plant, equipment, and infrastructure of the City are depreciated using the straight-line method over the following estimated useful lives:

Description	<u>Useful Life</u>
Land Improvements	20 Years
Infrastructure	10 to 65 Years
Buildings and Construction	25 to 50 Years
Pump Station and Tanks	40 Years
Machinery and Equipment	5 to 30 Years
Vehicles	8 Years

N. Leases (Lessor)

Lessor

The City of East Providence, Rhode Island is a lessor for a noncancellable lease of cell towers. The City recognizes a lease receivable and a deferred inflow of resources in the applicable governmental activities or business-type activities in the government-wide and in the governmental and proprietary fund financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Leases (Lessor) (Continued)

Lessor (Continued)

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports a deferred charge on refunding and deferred outflows related to pension and Other Post-Employment Benefit (OPEB) in the government- wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The City also reports deferred inflows of resources related to pensions and OPEB in the government-wide statement of net position. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees). In addition, for governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

P. Compensated Absences

Under the terms of various contracts and agreements, City employees are granted vacation and sick leave in varying amounts based on length of service. They are allowed to accumulate the vacation and sick leave in accordance with the limits of the contracts. This time will be paid upon separation from City service.

The entire compensated absence liability is reported in the government-wide financial statements. For governmental fund financial statements, the amount of accumulated vacation and sick leave has been recorded as a current liability to the extent that the amounts are expected to be paid using expendable available financial resources (i.e., upon an employee's resignation or retirement). The balance of the liability not paid with expendable available financial resources is not recorded in the governmental fund financial statements.

Q. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Long-Term Obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, and debt payments, are reported as debt service expenditures.

R. Net Pension Asset/Liability

The net pension asset/liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

S. Net OPEB Liability

The net OPEB liability is measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

T. Fund Equity

Equity in the government-wide financial statements is defined as "net position." Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The components of net position are detailed below:

Net Investment in Capital Assets - The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

Restricted for Debt Service - The component of net position that reflects funds set aside in accordance with indenture agreements with bondholders.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

T. Fund Equity (Continued)

Restricted for Special Revenue Funds - The component of net position that reports the difference between assets and liabilities of the various special revenue funds with constraints placed on their use by federal, state, or local requirements.

Unrestricted - All other amounts that do not meet the definition of "restricted" or "net investment in capital assets."

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

Nonspendable Fund Balance

Includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted Fund Balance

Is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws, or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for capital projects and debt service obligations and for other items contained in the Rhode Island General Laws.

Committed Fund Balance

Will be reported for amounts that can only be used for specific purposes pursuant to formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by the adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, these funds may only be used for the purpose specified unless the City Council removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the City Council.

Assigned Fund Balance

This represents amounts constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned Fund Balance

This represents the residual classification for the general fund and deficit fund balances in other funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

U. Fund Balance Flow Assumptions

The City of East Providence does not currently have a spending policy regarding the order in which restricted, committed, assigned, and unassigned fund balances are spent when more than one amount is available for the expenditures incurred. Accordingly, by default, the City is following the policy prescribed by GASB Statement No. 54 which specifies that fund balance is reduced first by committed, then by assigned, then by unassigned when expenditures are incurred for purposes for which any unrestricted fund balance could be used. In all situations, the City considers restricted fund balance to when available and when expenditures are incurred that meet the requirements of the restricted fund balance.

V. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

W. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is February 10, 2025.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The City has formally established budgetary accounting control for its General Fund and the School Unrestricted Fund, which is a Special Revenue Fund. The Mayor, at least 45 days prior to the beginning of each budget year, shall submit to the City Council a proposed General Fund budget, including the School Unrestricted Fund. At the City Council meeting at which the budget is submitted, the City Council shall determine a place and time for a public hearing on the budget. After the public hearing, the City Council may insert new items or may increase or decrease the items of the budget, except expenditures fixed by law or prescribed by Charter. Before any additions are made to the budget by the City Council, another public hearing must be scheduled. The budget must be adopted by a favorable vote of at least a majority of all the members of the City Council. The budget must be finally adopted not later than seven days before the end of the current fiscal year. Should the City Council take no final action on or prior to such day, the budget, as submitted, shall be deemed to have been formally adopted by the City Council. The General Fund and School Unrestricted Fund annual operating budget amounts are supported by the revenue estimates and take into account the elimination of the accumulated deficits and the reappropriation of accumulated surpluses to the extent necessary. The General Fund and School Unrestricted Fund budgets are in conformance with the legally enacted budgetary basis, which is not in conformance with generally accepted accounting principles (GAAP). The budget to actual presentation in the required supplementary information for these funds is reflected on the budgetary basis.

The Mayor may, at any time, transfer any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department, or agency. At the request of the Mayor and within the last three months of the budget year, the Council may enact a resolution to transfer any unencumbered appropriation balance or portion thereof from one office, department, or agency to another. Appropriations not expended or encumbered lapse at year end.

The City has adopted a fund balance policy for the general fund. Every year the City has to budget 1% of revenues to replenish the fund balance to a maximum of 12% of the prior fiscal year general fund operating revenues, 7% of which is restricted. In the event that the payment to be made into the Fund Balance would increase the amount in said account to more than 12% of the prior fiscal year general operating fund revenues that said amount shall be transferred to a capital fund to be used solely for funding capital projects.

B. Legal Debt Margin

The City's legal debt margin as set forth by State Statute is limited to 3% of total taxable assessed value. The legal debt margin for the City is approximately \$156,473,000. As of October 31, 2023, the City's debt subject to legal debt margin is \$1,660,000, and the City is under the debt limit by \$154,813,000.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

C. Excess of Expenditures Over Appropriations

For the year ended October 31, 2023, expenditures exceeded appropriations in the following categories:

Mayor	\$ 12,317
Senior Services	21,193
Information Technology	42,591
City Clerk	7,721
Finance	13,607
Law	2,171
Human Resources	29,342
EEOC / Affirmative Action	3,374
Police	105,654
Public Works Director	16,948
Streetlights	182,317
Refuse Disposal	14,168
Recreation	114,640
Total Other Financing Sources (Uses)	3,006,191

D. Fund Deficits

At October 31, 2023, the City reported deficit fund balance in the following funds:

Senior Center Grants	\$ 2,853	21st Century	\$ 8,000
NEIWPCC Narr Bay Estuary 66.456	29,375	High School Donations	863
Sabin Point VW Settlement	22,589	Summer School Remedial	38,566
Historic Interpretive Signage Plan	14,446		
RIDEM Park Grants Activities	1,645		
Take it Outside	19,397		
Runnins River Water Quality Improvements	13,291		
EPPC Activities	8,833		
Center for Tech and Civic Life	27		
Lori Grant	1,349		
Byrne Jag 16.738 and 16.739	3,647		
Emergency Mgmt Program	470,931		
Regional Pods	22,624		
State Hazmat Grant 97.044 and 97.067	40,874		
I-195 Interchange Watchemoket	13,720		

The nonmajor governmental fund deficits will be eliminated by grant funding, transfers, and future donations.

NOTE 3 CASH AND CASH EQUIVALENTS

Deposits

Substantially all of the City's cash and cash equivalents are held in public deposit institutions. Pursuant to Section 35-10-1 of the Rhode Island General Laws, as of October 1, 1991, public deposit institutions are required to insure accounts that hold public funds in excess of the \$250,000 that is guaranteed by Federal Deposit Insurance Corporation (FDIC). At times, the City pools cash resources of its various funds to facilitate the management of cash and maximize investment returns.

Deposit Custodial Credit Risk

Custodial credit risk in the case of deposits is the risk that in the event of a bank failure, the City's deposits may not be returned. The State of Rhode Island requires that certain uninsured deposits be collateralized. Section 35-10.1-7 of the General Laws of the State of Rhode Island, dealing with the collateralization of public deposits, requires that all time deposits with maturities of greater than 60 days and all deposits in institutions that do not meet the minimum capital requirements of its federal regulator must be collateralized. The City does not have a formal deposit policy for custodial credit risk but is governed by State laws as described above.

As of October 31, 2023, the City's entire bank balance of \$67,170,233 was covered by either FDIC insurance or collateral held in the City's name. The City also had deposits of \$2,699,506 that are held in the Ocean State Investment Pool (OSIP). Pursuant to GASB 79, Certain External Investment Pools and Pool Participants, the City's institutional money market accounts represent qualifying external investment pools that measures for financial reporting purposes all its investments at amortized cost.

The OSIP is offered by The State of Rhode Island and managed by FIAM LLC (FIAM) a Fidelity Investments company. While OSIP is unrated, investments are required to be invested in only the "highest quality securities" defined as being rated in one of the highest categories by at least two Nationally Recognized Statistical Rating Organizations. Credit quality represents ratings assigned at the security level or ratings assigned to the entities that issue the securities. OSIP uses ratings from Moody's Investors Services, Inc.

NOTE 4 INVESTMENTS

The City invests in various types of investments, which are stated at fair value. The Retirement Board of Trustees is responsible for all aspects of the Pension Trust Fund's investments and has adopted an investment policy. The Pension Trust Fund is prohibited from directly engaging in the following transactions unless they are executed by a professional third-party manager retained by the Board of Trustees of the Pension Trust Fund:

- Purchases of securities by partial payment of their cost (purchases on margin).
- Sale of securities not owned by the Pension Trust Fund at the time of sale (short sales).
- Future contracts.
- Call options written against securities in the portfolio other than as follows:
 - o Purchases of options other than as required to close out options positions.
 - Lettered or restricted stock (with the exception of those investments that are venture capital investments).
- Direct investment in mortgages.
- Collateral loans (with the exception of those investments that are leveraged buyout investments), provided that boards may participate in so-called "securities lending" programs through a custodian and provided, further, that the lending of securities is limited to brokers, dealers, and financial institutions and that the loan is collateralized by cash or United States Government securities according to applicable regulatory requirements.
- Direct purchase or lease of real estate.

Interest Rate Risk

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The City has no investments that are subject to interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The City has no formal investment policy that limits investment choices for its pension funds.

Concentration of Credit Risk

The City does not have a formal investment policy that limits the amount that can be invested with one issuer. Currently, the City has no investments, to which this requirement applies, in any one issuer that represents more than five percent of the total investments.

NOTE 4 INVESTMENTS (CONTINUED)

Custodial Credit Risk

Custodial credit risk is the risk that in the event of financial institution failure, the city's deposits and/or investments may not be returned. The City does not believe that it has significant custodial credit risk as substantially all investments securities are registered and held in the name of the City. Additionally, the City places deposits in financial institutions that are FDIC insured up to \$250,000, rated "well capitalized" on its most recent audited financial statement/SEC filings if deposits exceed engage an outside rating agency to determine status of the institution. The City also ensures that all uninsured deposits greater than \$250,000 are collateralized.

Fair Value

The City uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for certain assets or liabilities. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the asset or liability.

Fair value measurements focus on exit prices in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment.

The City's fair value measurements are classified into a fair value hierarchy based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

The three categories within the hierarchy are as follows:

Level 1 - Quoted prices in active markets for identical assets and liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, interest rates and yield curves observable at commonly quoted intervals, implied volatilities, credit spreads and market-corroborated inputs.

NOTE 4 INVESTMENTS (CONTINUED)

Fair Value (Continued)

Level 3 - Unobservable inputs shall be used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flows methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgement.

At October 31, 2023, the City had the following recurring fair value measurements:

		Fair Value Measurements Using							
	Fair Value	Level 1	Level 2	Level 3					
Investments by Fair Value Level:									
Mutual Funds	\$ 161,649,564	\$ 104,173,857	\$ 38,360,870	\$ 19,114,837					
Alternative Investments	33,925,219			33,925,219					
Total Investments by									
Fair Value Level	\$ 195,574,783	\$ 104,173,857	\$ 38,360,870	\$ 53,040,056

Tax Increment Financing Bond

Tax increment financing (TIF) is an economic development tool in which a municipality earmarks a portion of its property taxes to help finance development in a particular area or site. During fiscal years 2017 and 2022, the City participated in tax incremental financing agreements with local real estate developers to pay for infrastructure improvements and site remediation at Kettle Point and East Point, respectively.

In fiscal year 2017, the City issued \$10,600,000 in special obligation tax increment revenue bonds. The debt service on these bonds is payable solely from the tax increment generated by the property within the project area. The City and its taxpayers are not liable for such bonds, except to the extent of the additional property taxes generated within the project area and dedicated to repayment of the bonds. If the project does not generate enough additional taxes to pay the debt service on the bonds, the bondholders do not have any rights for claims against the City's other taxes and revenues. The special obligation tax increment revenue bonds are not general obligations of the City nor do they count against the City's statutory debt limit. Total principal and interest remaining on the bonds is \$20,163,500 payable through 2041. For the current year, interest paid was \$810,750 and there were \$603,009 in incremental property tax revenues generated.

In fiscal year 2022, the City issued \$19,480,000 in special obligation tax increment revenue bonds. The debt service on these bonds is payable solely from the tax increment generated by the property within the project area. The City and its taxpayers are not liable for such bonds, except to the extent of the additional property taxes generated within the project area and dedicated to repayment of the bonds. If the project does not generate enough additional taxes to pay the debt service on the bonds, the bondholders do not have any rights for claims against the City's other taxes and revenues. The special obligation tax increment revenue bonds are not general obligations of the City nor do they count against the City's statutory debt limit. Total principal and interest remaining on the bonds is \$40,293,647 payable through 2047. For the current year, interest paid was \$733,747 and there were \$-0-in incremental property tax revenues generated.

NOTE 8 CHANGES IN LONG-TERM LIABILITIES (CONTINUED)

Authorized but Unissued Bonds

The total of authorized but unissued bonds at October 31, 2023, is \$192,530,000. In some cases, interim financing is obtained through bond anticipation notes or other short-term borrowings until the issuance of long-term debt.

NOTE 9 FUND BALANCE

NOTE 10 PENSION PLANS

Summary of Significant Accounting Policies

A. Police and Firefighters Retirement System

Plan Description

The Police and Firefighters Retirement System covers all police officers and firefighters sworn into the respective departments. The Police and Firefighters Retirement System is a single employer defined benefit pension plan. The Board of Trustees is responsible for the administration of the plan. The Board is comprised of seven members consisting of the Mayor, the City Finance Director, one police officer and one firefighter having at least five years of credited service, one member of the city police and fire retirees association, one member of City Council, and one member who shall be elected by the remaining six members of the Board. The pension plan is reported as a Pension Trust Fund in the City's financial statements. The City does not issue a separate publicly available financial report that includes financial statements and required supplementary information (RSI) for the Police and Firefighters Retirement System.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

A. Police and Firefighters Retirement System (Continued)

Plan Description (Continued)

The following benefit provisions and contribution requirements were established and may be amended by City Ordinance.

Benefit Provisions

The Police and Firefighters Retirement System provides retirement, disability, and death benefits to its members. Retirement benefits are generally calculated as the product of the number of completed years of service, final average compensation at retirement, and a cumulative percentage that varies by years of service (for each year 0 - 24 years: 2.5%, for each year 25 - 28 years: 2.0%, and for each year 29 - 30 years: 1.0%). Members may retire after 20 years of service. Fire Fighters hired after January 1, 2014, may retire after age 55 with 25 years of service. Police hired after January 1, 2014, may retire after age 50 with 25 years of service. Members are eligible for non-service-related disability after 10 years of service and service-related disability after hire date. Disability benefits are determined in the same manner as retirement benefits but are payable immediately without actuarial reduction. Death benefits are provided for nonservice-related deaths after three years of service and for service-related deaths after hire date. Benefits upon death are also dependent on marital and dependent status at the time of death. Members who leave the Plan upon employment termination prior to 10 years of service are entitled to the return of contributions without interest.

As of October 31, 2023, the following employees and other participants were members of the Police and Firefighters Retirement System:

	Total
Active Participants	205
Retired Participants	204
Beneficiaries	46
Disability Participants	49
Terminated Vested Participants	16
Total Participants	520

Contributions

The actual contributions required to be made to the Plan by the City each year are determined based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by members during the year, with an additional amount to finance the unfunded accrued liability. The City contributions to the Plan for the fiscal year ended October 31, 2023, were 71.86% of covered payroll. The established contribution rates for members are currently set at 10% of pay for firefighters and 9.5% of pay for police. For the purpose of pension calculations and determination of contributions, pay includes base pay, longevity pay and holiday pay of the members.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

A. Police and Firefighters Retirement System (Continued)

Actuarial Assumptions

The City's net pension liability has been measured as of October 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The total pension liability in the October 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Actuarial Cost Method Entry Age Normal. The Actuarial Recommended

Contribution is determined as a percentage of

payroll.

Inflation 2.50% Salary Increases, including inflation 7.00% - 4.00%

Investment Rate of Return 7.25%

Mortality Rates

- Healthy Lives Pub-2010 Safety amount-weighted tables, with

generational improvements from 2010 based on assumptions from the 2021 Social Security Administration (SSA) Trustees' Report. Survivors and beneficiaries utilize the Pub-2010

Continuing Survivor mortality tables with the same

projected generational improvement.
- Disabled Lives Pub-2010 Safety Disabled Retiree Mortalit

Pub-2010 Safety Disabled Retiree Mortality table with generational improvements from 2010 based on assumptions from the 2021 Social Security Administration (SSA) Trustees' Report.

As the plan is not large enough to have credible

experience, mortality rates are set to reflect general

population trends.

The actuarial assumptions used in the October 31, 2023, actuarial valuation have been based on the results of the 2015 Actuarial Experience Study completed for the periods ended October 31 in years 1991 through 2014.

Benefit terms provide for annual cost-of living adjustments to the monthly benefit payable to retired Members each year, generally including retired Members from about the mid-1990s and thereafter. The annual cost-of-living for these retired Members is an annual compounded increase of 3.00% each year. For Fire Fighter Members hired after January 1, 2014, the annual cost-of-living increase upon retirement will be an annual non-compounded increase of 2.25% each year. These annual cost-of-living increases are fully reflected in the determination of the total pension liability which has been determined as of October 31, 2023.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

A. Police and Firefighters Retirement System (Continued)

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by a majority vote of the Board of Trustees. It is the policy of the City to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy is long-term and strategic in nature. The policy refrains from dramatically shifting asset class allocations over short time spans, and it seeks to be fully invested using cash equivalents for liquidity purposes.

The long-term expected rate of return on pension plan investments can be approximated by using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding the annual expected annual rate of inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of October 31, 2023, are summarized in the following table:

		Long-Term
	Target	Expected Rate
Target Asset Allocation Asset Class	Allocation	of Return
Domestic Equity	30.0%	6.0%
International Equity	19.0	6.4
Fixed Income	24.0	2.2
Real Estate	8.0	5.0
Hedge Funds	10.0	7.5
Private Equity	8.0	8.8
Cash	1.0	1.0
Total	100.0%	

Discount Rate

The discount rate used to determine the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rates and that City contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the employee contribution rates. Professional judgment on future contributions has been applied in those cases where contribution patterns deviate from the actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

A. Police and Firefighters Retirement System (Continued)

Rate of Return

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 1.4% for the year ended October 31, 2023. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The City's net pension liability was measured as of October 31, 2023. The components of the net pension liability of the City at October 31, 2023, were as follows:

Total Pension Liability	\$ 291,430,277
Plan Fiduciary Net Position	142,163,276
City's Net Pension Liability	\$ 149,267,001

Changes in the Net Pension Liability

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

A. Police and Firefighters Retirement System (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Below is a table providing the sensitivity of the net pension liability to changes in the discount rate. In particular, the table presents the plan's net pension liability if it was calculated using a single discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the single discount rate:

		Current					
	1% Decrease	Discount Rate	1% Increase				
Net Pension Liability	\$ 187,141,964	\$ 149,267,001	\$ 118,205,413				

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of</u> Resources Related to Pension

For the year ended October 31, 2023, the Police and Firefighters Retirement System recognized pension expense of \$10,262,368. As of October 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences Between Expected and Actual Experience	\$ 1,249,505	\$ -
Changes of Assumptions	1,892,877	536,035
Net Difference Between Projected and Actual		
Earnings on Pension Plan Investments	24,919,233	9,877,938
Total	\$ 28,061,615	\$ 10,413,973

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

	Net Deferred
	Outflows
	(Inflows)
Year Ending October 31,	of Resource
2024	\$ 6,049,877
2025	2,449,593
2026	7,388,563
2027	1,759,609
Total	\$ 17,647,642

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

B. Employees' Retirement System

Plan Description

Certain employees of the East Providence School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Benefit Provisions

The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. For members retiring after July 1, 2024, retiree benefit amounts are based on the average three consecutive years of compensation. Members eligible to retire at September 30, 2009, may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided to retirees based on statutory provisions (Section 36-10-35 of the Rhode Island General Laws). For members and/or beneficiaries of members who retired on or before June 30, 2012, cost of living adjustments are computed annually. For members retiring on or after July 1, 2012, twenty-five percent (or 1/4th) of the cost of living adjustment is computed annually until the plan reaches a 75% funded status. The full benefit adjustment is reinstated for all members upon the plan reaching the 75% funded status.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

B. Employees' Retirement System (Continued)

Benefit Provisions (Continued)

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions

The funding policy, as set forth in the General Laws, section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2023, East Providence School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with 20 or more years of service as of June 30, 2012, must contribute 11% of their annual covered salary. The state and the City are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by the City; the rates were 11.13% and 15.03% of annual covered payroll for the fiscal year ended June 30, 2023, for the state and the City, respectively. The City contributed \$6,228,164, \$5,913,064, and \$5,612,465 for the fiscal years ended June 30, 2023, 2022, and 2021, respectively, equal to 100% of the required contributions for each year.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u>

At October 31, 2023, the East's Providence School Department reported a liability of \$52,932,343 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the City as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the City were as follows:

East Providence School District's Proportionate

Share of the Net Pension Liability \$ 52,932,343

State of Rhode Island's Proportionate
Share of the Net Pension Liability 39,371,112

Total Net Pension Liability \$ 92,303,455

The net pension liability was measured as of June 30, 2023, the measurement date and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2023. The City's proportion of the net pension liability was based on a projection of the City long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2023, the City's proportion was 2.2%.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

B. Employees' Retirement System (Continued)

For the year ended October 31, 2023, the City recognized gross pension expense of \$8,353,167 and revenue of \$3,800,234 for support provided by the State. At October 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Differences Between Expected and Actual Experience	\$ 613,733	\$ 1,231,085
Changes of Assumptions	226,612	2,092,797
Net Difference Between Projected and Actual		
Earnings on Pension Plan Investments	6,393,412	8,273,653
Changes in Proportion and Differences Between		
Employer Contributions and Proportionate Share		
of Contributions	2,179,287	694,078
Contributions Subsequent to Measurement Date	2,289,063	
Total	\$ 11,702,107	\$ 12,291,613

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u>

The amount of \$2,289,063 reported as deferred outflows of resources related to pensions resulting from the City's contributions in fiscal year 2023 subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred
	Outflows
	(Inflows)
Year Ending October 31,	of Resource
2024	\$ (1,039,974)
2025	(2,123,400)
2026	1,130,510
2027	(485,613)
2028	(175,928)
Thereafter	(184,164)
Total	\$ (2,878,569)

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

B. Employees' Retirement System (Continued)

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary Increases 3.00% to 13.00%

Investment Rate of Return 7.00%

Mortality – Variants of the PUB (10) Tables for Healthy and Disabled Retirees, projected with Scale Ultimate MP16.

The actuarial assumptions used in the June 30, 2022, valuation rolled forward to June 30, 2023, and the calculation of the total pension liability at June 30, 2022, were consistent with the results of an actuarial experience study performed as of June 30, 2020.

Investments

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 39 sources. The June 30, 2023, expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
GROWTH		
Global Equity:		
Domestic Equity	30.00%	6.01%
International Equity	19.00	6.39
Fixed Income	24.00	2.23
Real Estate	8.00	5.01
Hedge Funds	10.00	7.51
Private Equity	8.00	8.76
Cash	1.00	1.03
Total	100.0%	

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

B. Employees' Retirement System (Continued)

Investments (Continued)

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Measurement of the Net Pension Liability

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.0%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
Net Pension Liability	\$ 67,875,003	\$ 52,932,343	\$ 39,355,223

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

C. Municipal Employees' Retirement System (MERS)

Plan Description

The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability, and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org.

Benefits Provided

General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary - Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service - Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

C. Municipal Employees' Retirement System (MERS) (Continued)

Benefits Provided (Continued)

Final Compensation - Prior to July 1, 2012, and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable Final Average Compensation (FAC) will be the greater of the member's highest three year FAC as of July 1, 2012, or the five year FAC as of the retirement/termination date. For members retiring after July 1, 2024, retiree benefit amounts are based on the average three consecutive years of compensation. Monthly benefits are based on one-twelfth of this amount.

General Employees

Members with less than five years of contributory service as of June 30, 2012, and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012, will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012, as described above. The interpolation is based on service as of June 30, 2012, divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012, may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012, were not impacted by the changes to retirement eligibility above.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

C. Municipal Employees' Retirement System (MERS) (Continued)

General Employees (Continued)

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012, and 1.00% of the member's monthly FAC for each year of service from July 1, 2012, through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012, in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Other Benefit Provisions

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

Cost of living adjustments are provided to retirees based on statutory provisions (Section 36-10-35 of the Rhode Island General Laws). For members and/or beneficiaries of members who retired on or before June 30, 2012, cost of living adjustments are computed annually. For members retiring on or after July 1, 2012, twenty-five percent (or 1/4th) of the cost of living adjustment is computed annually until the plan reaches a 75% funded status. The full benefit adjustment is reinstated for all members upon the plan reaching the 75% funded status.

Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

C. Municipal Employees' Retirement System (MERS) (Continued)

Other Benefit Provisions (Continued)

The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (a) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$27,608 for 2021, \$27,901 for 2022 and \$28,878 for 2023.

Employees Covered by Benefit Terms

At the June 30, 2023, valuation date, the following employees were covered by the benefit terms:

	Total
Retirees and Beneficiaries	431
Inactive, Nonretired Members	189
Active Members	414
Total	1,034

Contributions

The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012, are required to contribute 2% of their salaries. General employees with more than 20 years of service as of June 30, 2012, are required to contribute 8.25%. The City contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The City contributed \$4,630,205 in the year ended October 31, 2023, which was 21.45% of annual covered payroll.

Net Pension Liability

The total pension liability was determined by actuarial valuations performed as of June 30, 2023, and rolled forward to June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement.

NOTE 10 PENSION PLANS (CONTINUED)

<u>Summary of Significant Accounting Policies (Continued)</u>

C. Municipal Employees' Retirement System (MERS) (Continued)

Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2023, measurement date (June 30, 2022, valuation rolled forward to June 30, 2023)

Actuarial Cost Method Entry Age Normal - the Individual Entry Age Actuarial Cost methodology is used. **Amortization Method** Level Percent of Payroll - Closed Actuarial Assumptions Investment Rate of Return Projected Salary Increases General Employees - 3.25% to 7.25% Inflation Mortality Mortality - Variants of the PUB (10) Tables for Healthy and Disabled Retirees, projected with Scale Ultimate MP16. Cost of Living Adjustments All future COLAs were assumed to be 2.1% per annum for all MERS units with the COLA provision.

The actuarial assumptions used in the calculation of the total pension liability at June 30, 2023, measurement date were based on the 2023 Actuarial Experience Investigation Study for the six-year period ended June 30, 2022, as approved by the System's Board on May 17, 2023.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 42 sources. The June 30, 2023, expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
GROWTH		
Global Equity:		
Domestic Equity	30.00%	6.01%
International Equity	19.00	6.39
Fixed Income	24.00	2.23
Real Estate	8.00	5.01
Hedge Funds	10.00	7.51
Private Equity	8.00	8.76
Cash	1.00	1.03
Total	100.0%	

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

C. Municipal Employees' Retirement System (MERS) (Continued)

<u>Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2023, measurement date (June 30, 2022, valuation rolled forward to June 30, 2023) (Continued)</u>

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Measurement of the Net Pension Liability

Discount Rate

The discount rate used to measure the total pension liability of the plans was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

		Increase (Decrease)	
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
	(a)	(b)	(a)-(b)

Summary of Significant Accounting Policies (Continued)

C. Municipal Employees' Retirement System (MERS) (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability (asset) of the employers calculated using the discount rate of 7.0 percent, as well as what the employers' net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

	1% Decrease	Discount Rate	1% Increase
	6.00%	7.00%	8.00%
Net Pension Liability	\$ 49,130,088	\$ 37,808,759	\$ 27,522,264

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

For the year ended October 31, 2023, the employer recognized pension expense of \$2,389,573. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

		Deferred Outflows of	Deferred Inflows of
	_	Resources	Resources
Differences Between Expected and Actual Experience	\$	-	\$ 2,369,252
Changes of Assumptions		-	517,583
Net Difference Between Projected and Actual			
Earnings on Pension Plan Investments		5,060,608	6,062,783
Contributions Subsequent to Measurement Date		1,599,798	 <u>-</u>
Total	\$	6,660,406	\$ 8,949,618

\$712,677 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement will be recognized as a reduction of the net pension liability in the subsequent period.

Total	\$ (3,889,010)

D. Teachers' Survivors Benefit Plan

Plan Description

Certain employees of the East Providence School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Eligibility and Plan Benefits

The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

D. Teachers' Survivors Benefit Plan (Continued)

Eligibility and Plan Benefits (Continued)

Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment. Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement. The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

	Basic	Monthly
Highest Annual Salary	Spouse	e's Benefit
\$17,000 or Less	\$	825
\$17,001 to \$25,000		963
\$25,001 to \$33,000		1,100
\$33,001 to \$40,000		1,238
\$40,001 and Over		1,375

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

	Percentage
Parent and One Child	150%
Parent and Two or More Children	175
One Child Alone	75
Two Children Alone	150
Three or More Children Alone	175
Dependent Parent	100

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

D. Teachers' Survivors Benefit Plan (Continued)

Contributions

The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$11,500; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The East Providence School Department contributed \$61,700, \$62,290, and \$59,953 for the fiscal years ended October 31, 2023, 2022, and 2021, respectively, equal to 100% of the required contributions for each year.

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At October 31, 2023, the East Providence School Department reported an asset of \$16,193,129 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2023, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2023. The East Providence School Department's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2023 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2023, the East Providence School Department's proportion was 8.05%.

For the year ended October 31, 2023, the East Providence School Department recognized pension credit of \$1,563,634 - an increase in the net pension asset. At October 31, 2023, the East Providence School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	O	Deferred utflows of esources		I	Deferred nflows of lesources
Differences Between Expected and Actual Experience	\$	111,517	-	\$	1,390,467
Changes of Assumptions		193,165			866,497
Net Difference Between Projected and Actual					
Earnings on Pension Plan Investments		2,132,004			2,598,729
Changes in Proportion and Differences Between					
Employer Contributions and Proportionate Share					
of Contributions		467,299			289,299
Contributions Subsequent to Measurement Date		60,507			
Total	\$	2,964,492	_	\$	5,144,992

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

D. Teachers' Survivors Benefit Plan (Continued)

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)</u>

The amount of \$60,507 reported as deferred outflows of resources related to pensions resulting from the East Providence School Department's contributions in fiscal year 2023 subsequent to the measurement date will be recognized as an addition to the net pension asset in the subsequent period Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net	Deferred
	С	utflows
	(1	nflows)
Year Ending October 31,	of I	Resource
2024	\$	(821,404)
2025		(926, 193)
2026		157,049
2027		(357,867)
2028		(130,101)
Thereafter		(162,491)
Total	\$ ((2,241,007)

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	3.00% to 13.00%
Investment Rate of Return	7 00%

Mortality – variants of the PUB (10) Tables for Healthy and Disabled Retirees, projected with Scale Ultimate MP16.

COLA – eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment - for valuation purposes, a 2.5% cost of living adjustment is assumed.

The actuarial assumptions used in the calculation of the total pension liability at June 30, 2023, measurement date were based on the 2023 Actuarial Experience Investigation Study for the six-year period ended June 30, 2022, as approved by the System's Board on May 17, 2023.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

D. Teachers' Survivors Benefit Plan (Continued)

Actuarial Assumptions (Continued)

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 42 sources. The June 30, 2023, expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
GROWTH Global Equity:		
U.S. Equity	25.10%	6.46%
International Developed Equity	10.70	6.91
Emerging Markets Equity	4.20	8.92
Subtotal Private Growth:	40.00	
Private Growth. Private Equity	12.50	10.30
Non-Core Real Estate	2.50	5.01
Subtotal	15.00	
INCOME	2.22	0.00
Equity Options	2.00	6.20

Absolute Return	6.50	4.07
Cash	2.00	0.76
Subtotal	15.00	5 0
Total	100.00	

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

D. Teachers' Survivors Benefit Plan (Continued)

Measurement of the Net Pension Liability (Asset)

Discount Rate

The discount rate used to measure the total pension liability (asset) was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) calculated using the discount rate of 7.0% as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the current rate.

	Current			
	1% Decrease	Discount Rate	1% Increase	
Net Pension (Asset) Liability	\$ (14,480,714)	\$ (16,193,129)	\$ (17,748,995)	
riot i cholon (/ tooct) Liability	ψ (17,700,117)	ψ (10,100,120)	Ψ (17,770,000)	

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

NOTE 10 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies (Continued)

E. Defined Contribution Plan

Plan Description

Employees participating in the defined Teachers' benefit plan and MERS benefit plan, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a), and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Teachers contribute 7% of their annual covered salary, police employees that are in the MERS Plan contribute 3% of their annual covered salary, and all other employees in the MERS Plan contribute 5% of their annual covered salary. Employers contribute 1% of annual covered salary for municipal and non-certified school employees, and 3% for teachers and police officers in MERS who are not eligible for social security. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws of the State of Rhode Island, which are subject to amendment by the General Assembly.

Employees with 20 or more years of service as of July 1, 2012, do not participate in the defined contribution plan. Employers continue to contribute 1% for employees in the system that had less than 10 years of service as of July 1, 2012. Employers contribute 3.25% of annual covered salary teachers and 1.25% of annual covered salary for MERS participants that had between 10 and 15 years of service as of July 1, 2012.

Amounts in the defined contribution plan are available to participants in accordance with IRS guidelines for such plans.

The City (including the School Department) recognized pension expense of \$1,563,634 for the fiscal year ended October 31, 2023. Of that amount, \$1,491,562 was recognized for general employees and \$72,072 was for school employees.

The System issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at www.ersri.org.

NOTE 11 OTHER POST-EMPLOYMENT BENEFITS

The City and School Department have separate benefit plans for other post-retirement employment benefits. Plan details are as follows:

A. City Plan

Plan Description

The City administers a single-employer, defined benefit post-employment benefit plan. The plan provides medical, dental, and life insurance for eligible retirees and their dependents through the City's group health and life insurance plans, which cover both active and retired members. Benefit provisions are established and may be amended by the union contracts through negotiations between the City and the respective unions. The plan does not issue a publicly available financial report.

Management of the post-employment benefits plan is vested with the Finance Director under the direction of the Mayor. Funds are managed by a third-party investment management firm.

Funding Policy

The City has established a trust fund to irrevocably segregate assets to fund the liability associated with post-employment benefits. The fund is reported as a trust fund in accordance with GASB guidelines. The annual actuarially determined contribution payment is transferred into this account annually from the General Fund and budgeted as part of the budgeting process, which is approved by the City Council.

The City's funding strategy for post-employment obligations are based upon characteristics of benefits on distinct groups of employees established within their respective collective bargaining units and/or contracts.

Police, Fire, and City General Employees

Medical and prescription drug benefits and group life insurance of \$7.500 are provided to eligible retirees until age 65 or 3 years after retirement, whichever is later. Disabled police and firefighters receive benefits for life and disabled general employees are treated as retirees. The spouse's disability benefit terminates when the retiree turns 65 or upon death of retiree, whichever is earlier. A surviving spouse receives COBRA coverage upon death of the retiree and must pay the required COBRA rate. Upon death of an active Police Officer or Firefighter, the surviving spouse receives three years of free coverage paid by the City and then must elect COBRA coverage and pay the required COBRA rate. Upon death of a General City employee, the surviving spouse receives one year of subsidized coverage paid by the City and then must elect Cobra coverage and pay the required COBRA rate. The City's subsidy will be at the same level as the existing active employee's subsidy. Retirees prior to November 1, 2012, do not contribute to medical and prescription drug benefits or group life insurance, except for those enrolled in COBRA coverage or Medicare Plan 65 who pay the full cost of coverage. Members who retire on/after January 1, 2015, contribute 20% to the cost of retiree health benefits. Retirees may elect dental coverage at their own cost.

NOTE 11 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)

A. City Plan (Continued)

Police, Fire, and City General Employees (Continued)

At November 1, 2023, plan membership consisted of the following:

Active Employees	392
Retired Employees	163
Total	555

Investments

Investment Policy

The City is responsible for directing and monitoring the investment and management of the assets. Under the plan document, the City has the power to make such rules and regulations as may be necessary for the administration of the plan and the fund and the investment and reinvestment of the assets. As such, the City is authorized to delegate certain responsibilities to professional experts in various fields. These include investment managers, custodians, and other specialists such as attorneys, actuaries, retirement plan consultants, and others to assist the City in meeting its responsibilities and obligations to administer the plan assets prudently.

The investment plan assets shall be diversified to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so. Cash is to be employed productively at all times, by investment in short term cash equivalents to provide safety, liquidity, and return.

Rate of Return

For the year ended October 31, 2023, the annual money-weighted rate of return on investments, net of investment expense, was 6.12%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the City

The City's net OPEB liability was measured as of October 31, 2023. The components of the net OPEB liability of the City at October 31, 2023, were as follows:

Total OPEB Liability	\$ 43,895,973
Plan Fiduciary Net Position	 26,014,993
Net OPEB Liability	\$ 17,880,980
Plan Fiduciary Net Position as a	
Percentage of the Total OPEB Liability	59.3%

NOTE 11 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)

A. City Plan (Continued)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of November 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.2%
Salary Increases	4.0% - 10.0%, Including Inflation
Investment Rate of Return	6.9%, Net of OPEB Plan Investment
	Expense, Including Inflation
Healthcare Cost Trend Rates	8.0% Initial, Decreasing 0.5% Per
	Year to an Ultimate Rate of 4.5%

Mortality rates were based on SOA Pub-2010 Weighted Mortality Table fully generational using scale MP-2021.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset as of October 31, 2023, are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. Equity	41.0%	6.2%
Non-U.S. Equity	26.0	8.3
U.S. Aggregate Bonds	10.0	4.5
Intermediate-Term Credit	7.0	4.9
Short-Term Credit	3.0	4.5
Non-U.S. Bonds	5.0	4.2
REITs	8.0	6.6
Total	100.4%	

Discount Rate

The discount rate used to measure the total OPEB liability was 6.9%. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 11 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)

B. East Providence School Department Plan

Plan Description

The School Department administers a single-employer, defined benefit post-employment benefit plan. The plan provides medical, dental, and life insurance for eligible retirees and their dependents through the School Department's group health and life insurance plans, which cover both active and retired members. Benefit provisions are established and may be amended by the union contracts through negotiations between the School Department and the respective unions. The plan does not issue a publicly available financial report.

Management of the post-employment benefits plan is vested with the School Finance Director under the direction of the Superintendent. Funds are managed by a third-party investment management firm.

Funding Policy

The School Department has established a trust fund to irrevocably segregate assets to fund the liability associated with post-employment benefits. The fund is reported as a trust fund in accordance with GASB guidelines. The annual actuarially determined contribution payment is transferred into this account annually from the School Unrestricted Fund and budgeted as part of the budgeting process, which is approved by the School Committee.

The School Department's funding strategy for post-employment obligations are based upon characteristics of benefits on distinct groups of employees established within their respective collective bargaining units and/or contracts.

Teacher and School General Employees

Medical and prescription drug benefits, dental benefits, and group life insurance of \$25,000 are provided to eligible retirees. For retirees after November 1, 2012, medical and dental benefits will be provided for one year for family plans and two years for single plans. Custodians/secretaries who reach 30 years of service before October 31, 2017, shall receive health insurance benefits for themselves and their spouse until age 65. Medical, prescription drug, and dental benefits cease once the retiree is eligible for Medicare. Life insurance benefits cease upon attainment of age 70 (teachers, teachers assistants, principals, and administrators), age 75 (custodians), or age 80 (secretaries).

As of November 1, 2023, plan membership consisted of the following:

Active Employees	807
Retired Employees	245
Total	1,052

NOTE 11 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)

B. East Providence School Department Plan (Continued)

Investments

Investment Policy

The School Department is responsible for directing and monitoring the investment and management of the assets. Under the plan document, the School Department has the power to make such rules and regulations as may be necessary for the administration of the plan and the fund and the investment and reinvestment of the assets. As such, the School Department is authorized to delegate certain responsibilities to professional experts in various fields. These include investment managers, custodians, and other specialists such as attorneys, actuaries, retirement plan consultants, and others to assist the School Department in meeting its responsibilities and obligations to administer the plan assets prudently.

The investment plan assets shall be diversified to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so. Cash is to be employed productively at all times, by investment in short term cash equivalents to provide safety, liquidity, and return.

Rate of return: For the year ended October 31, 2023, the annual money-weighted rate of return on investments, net of investment expense, was 6.20%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the School Department

The School Department's net OPEB liability was measured as of November 1, 2023. The components of the net OPEB liability as of October 31, 2023, were as follows:

Total OPEB Liability	\$ 8,259,321
Plan Fiduciary Net Position	3,817,990
Net OPEB Liability	\$ 4,441,331

Plan Fiduciary Net Position as a

Percentage of the Total OPEB Liability 46.2%

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of October 31, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.20%
Salary Increases	2.75% - 8.25%, Including Inflation
Investment Rate of Return	7.0%, Net of OPEB Plan Investment
	Expense, Including Inflation
Healthcare Cost Trend Rates	8.0% Initial, Decreasing 0.5% Per
	Year to an Ultimate Rate of 4.5%

NOTE 11 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)

B. East Providence School Department Plan (Continued)

Actuarial Assumptions (Continued)

Mortality rates were based on SOA Pub-2010 Weighted Mortality Table fully generational using scale MP-2021.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset as of October 31, 2023, are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. Equity	41.0%	6.40%
Non-U.S. Equity	26.0	8.50
U.S. Aggregate Bonds	10.0	5.00
Intermediate-Term Credit	7.0	5.40
Short-Term Credit	3.0	4.90
Non-U.S. Bonds	5.0	4.60
REITs	8.0	7.30
Total	100.0%	6.67%

Discount Rate

The discount rate used to measure the total OPEB liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 12 SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Litigation

During the ordinary course of its operations, the City may become a party to various claims, legal actions, and complaints. In the opinion of the City's management and legal counsel, the potential outcome and liability, if any, associated with these claims cannot be determined at this time.

<u>Grants</u>

The City and School Department participate in a number of federally assisted programs. The audits of these programs through the year ended October 31, 2023, were performed in connection with the accompanying financial statements under the Single Audit concept and the auditors' reports thereon are presented in the separately issued single audit report. The amount, if any, of expenditures, which may be disallowed, will not be material to the financial position of the City.

NOTE 13 RESTATEMENT

The City previously reported the total amount of grant monies received under the American Rescue Plan Act as revenue. Under GASB No. 33, Accounting and Financial Reporting for Nonexchange Transactions, resources transmitted to the City before the eligibility requirements for the recognition of nonexchange revenue are met, should be reported as deferred revenues by the City. Accordingly, the City restated beginning balances of the liabilities, fund balance, and net position as follows:

	Governmental Activities Net Position	American Rescue Plan Act Fund Balance
Governmental Funds: Balance as Previously Reported October 31, 2022	\$ (49,221,523)	\$ 10,981,497
Adjustments: Understatement of Deferred Revenue	(10,989,733)	(10,989,733)
Balance as Restated November 1, 2022	\$ (60,211,256)	\$ (8,236)

Notes to Schedule

Valuation Date October 31, 2023 Measurement Date October 31, 2023

Actuarially-Determined Contribution Rates are Calculated as of June 30, Two Years Prior to the End of the Fiscal Year in Which Contributions are Reported.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal Cost Method. The Actuarially Determined Contribution is determined as a percentage of payroll.

Amortization Method 30-Year Closed level % of pay amortization of the excess of the entry age actuarial accrued liability over the actuarial value of plan assets. Beginning with the October 31, 2017 Valuation and actuarially determined contribution for plan year ending October 31, 2019, gains and losses, changes in provisions, and changes in assumptions are amortized as a closed level percent of pay over 20 years. For this purpose, payroll is assumed to grow at 3.00% annually.

Asset Valuation Method The actuarial value of assets is equal to the fair market value of assets on the valuation date adjusted for a 5-year

phase-in of gains and losses on fair market value of assets.

Inflation 2.50%

Salary Increases 7.00% assumed increases for those under 5 years of service, and 4.00% thereafter, plus longevity increases

according to bargaining agreements.

Investment Rate of Return 7.25%

Mortality - Healthy Pub-2010 Safety amount-weighted tables, with generational improvements from 2010 based on assumptions

from the 2021 Social Security Administration (SSA) Trustees' Report. Survivors and beneficiaries utilize the

Pub-2010 Continuing Survivor mortality tables with the same projected generational improvement.

Mortality - Disabled Pub-2010 Safety Disabled Retiree Mortality table with generational improvements from 2010 based on assumptions

from the 2021 Social Security Administration (SSA) Trustees' Report.

CITY OF EAST PROVIDENCE, RHODE ISLAND NOTES TO SUPPLEMENTARY INFORMATION – ANNUAL SUPPLEMENTAL TRANSPARENCY REPORT OCTOBER 31, 2023

NOTE 1 BASIS OF PRESENTATION

The Annual Supplemental Transparency Report (MTP2) is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2 REPORTABLE GOVERNMENT SERVICES

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined reportable government services (RGS), to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3 ALLOCATIONS

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the City's (or City's) budget and accounting system. To report these costs, the City (or City) made allocations of costs to the State's departmental groupings based on a reasonable basis.

CITY OF EAST PROVIDENCE, RHODE ISLAND NOTES TO SUPPLEMENTARY INFORMATION – ANNUAL SUPPLEMENTAL TRANSPARENCY REPORT OCTOBER 31, 2023

NOTE 4 EMPLOYEE GROUPS - COMPENSATION AND BENEFIT COSTS

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department police officers (e.g., uniform personnel including, leadership positions)
- Fire Department fire fighters (e.g., uniform personnel including, leadership positions)
- Centralized Dispatch Department civilian dispatchers only
- Education Department professional staff providing direct services to students
- For the remaining departments all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5 EDUCATION REVENUE AND EXPENDITURES

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: http://www.municipalfinance.ri.gov/.
