KIM A. CASCI-PALANGIO  
CITY CLERK

October 25, 2017

To the Director of Finance:

In accordance with the provisions of Article V, Section 13, of the City Charter, we, Timothy J. Chapman, City Manager and Kim A. Casci-Palangio, City Clerk of the City of East Providence, respectively do hereby certify that the within budget was adopted on October 20, 2017 as the budget for the City of East Providence, for the fiscal year 2017-2018, which begins November 1, 2017 and ends October 31, 2018.

IN ATTESTATION WHEREOF, we have hereby unto set our hands this twenty-fifth day of October, 2017.

  
Timothy J. Chapman  
City Manager

  
Kim A. Casci-Palangio  
City Clerk

**Honorable Mayor and City Council Members:**

I have had the honor of serving the residents of East Providence as City Manager for over one year and it has been a rewarding, challenging, and unique experience. The residents demand quality service, professionalism, transparency, financial responsibility and dedication. I trust our residents understand and appreciate the hard work that our City employees provide each day. Our employees strive to reach those demands and their own goals throughout the year. The City continues to grow economically and move in a positive direction. Our elected officials and leaders work diligently to assist the community. Through the budget presented, we will continue to focus on maintaining the demands of our residents and building on business, renewable energy, economic, and community goals to improve our City.

Here is my view of our City:

From a financial perspective - First and foremost, this budget does not deviate from the fiscal conservatism that the City has adhered to since the Budget Commission departed in 2013. In fact, it provides fiscally responsible measures to the stark reality that the City will incur increased costs resulting from nine City/School union contracts expiring at the end of the current fiscal year; taxpayer expectations that we repair decaying infrastructure, particularly our roads; our continued promise to residents that our public safety capabilities are second to none; an unanticipated, substantial increase to our required pension contribution for our Police and Fire Retirement Plan; additional funding requested by our School Department; a loss of "Distressed Community" revenue from the state; and a host of other challenges. This budget meets these significant cost challenges and allows us to meet our obligation to provide excellent municipal services to our entire community. It also importantly positions ourselves for new growth and development that will eventually expand our general fund revenue base to reduce the future tax burden on our residents and businesses. While this budget is cost efficient, it does call for a tax increase of 2.49 percentage points, some of which (about .7 percentage points) is due to the fact that the City's tax and fiscal year are unsynchronized, and that only 70% of a tax increase is collected during a particular fiscal year. If our tax and fiscal years were synchronized, this budget's tax increase would be approximately 1.8 percentage points.

You will see that this budget prioritizes public safety, infrastructure improvements and education, areas that we will need to enhance to facilitate our future growth. Later, in this letter you will learn of the exciting growth initiatives and opportunities that will soon push East Providence to the forefront of Rhode Island communities, and that will make us an even better place to live, work and do business. This budget will help solidify our present fiscal base, so that it can be a springboard used to help build a prosperous future that all of our residents can enjoy.

**The Present Financial Picture:** I am happy to report that the City is now in a considerably stronger financial position than it was only a short time ago when in 2011 it was placed under state fiscal oversight due to accumulated deficits, the inability to present a balanced budget, and the incapacity to pay its bills on time. With the support of our residents, political leaders and municipal/School employees, we not only have dug ourselves out of our financial distress, but we have exceeded ahead of schedule all of our goals to make certain that we remain a fiscally viable community. Our important accomplishments have included:

- Operating surpluses in all fiscal years since the departure of the Budget Commission in 2013.
- Bond Ratings that have been upgraded from junk status to "Investment Grade" quality from both the Moody's (A2) and Standard and Poor's (A) rating services. Most recently, Standard and Poor's in March of 2017, cited the City's "improved management conditions which have led to consistently strong budgetary performances and increases in available reserves over the past three years to very strong levels." The City's high bond ratings guarantee that it will be able to secure the lowest available interest rates when it sells bonds to finance major construction projects, or refinances existing bonds that it has outstanding. Our high bond ratings should save the City millions of dollars in future interest payments, as well as signal to potential and existing business that we are a fiscally responsible community to operate in.
- A fully funded Budget Reserve Fund that encompasses ten percent of revenues. All fiscally responsible cities have adequate reserves to protect against the unexpected. Our reserve fund was achieved seven years ahead of schedule, and will protect the City against unexpected reductions in revenues, or unanticipated increases in expenditures, such as healthcare.

- A reduction in the amount needed by the City for TANs borrowing. This is a measure of the City's cash liquidity. TANs borrowings have drastically been reduced from a high of \$32 million in 2011 to \$20 million in the past year. While the City will always have to borrow some level of TANs as long as its fiscal and tax years are different, the smaller amounts that are now required mean that the City will incur much lower annual interest payments than in previous years.
- A fulfillment of the City's commitment to fully fund its pension ARC. Additionally, the City has made significant additional contributions each year since 2013 to reduce its OPEB (Other Post-Retirement Employment Benefits) liability. This significant additional OPEB funding is something that only a handful of Rhode Island communities have accomplished, and will help to ensure East Providence's fiscal health for future taxpayer generations.
- Substantial investments in public safety that include the replacement of fire trucks, rescue vehicles and police cars. Our police and fire departments are well equipped with the latest equipment, so that our residents receive the best protection available.
- Important improvements made to the City's website that communicates relevant news, updates, and safety alerts to our residents and businesses in a faster and more comprehensive manner.
- A significant investment in new computer software. We have modernized our payroll and human resource functions, and have implemented an entirely new water/wastewater billing and tracking system. We have also made it much easier for residents to pay their tax bills online, to receive e-mail notices regarding tax due dates, and to electronically retrieve their historical payment amounts.

Next Year's Proposed Financial Picture: The proposed 2017 /2018 fiscal year budget anticipates that the City will reasonably resolve its remaining, expiring labor contracts, and will be then able to move forward with a number of important initiatives. I have removed over \$5 million from the submitted departmental budgets because I believe that we should continue to run our operations efficiently and accomplish more with less taxpayer dollars. That being said, the proposed budget calls for a \$5.2 million (3.4 percentage points) general fund expenditure increase from the prior year's budget. Of that amount, the School Department is proposed to increase by \$3.1 million and the City's operations by \$2.1 million.

The City's proposed General Operating Fund \$2.1 million budget increase represents a 2.9 percentage point increase over the prior year's budget. Public safety is budgeted to increase by about \$800K (excluding an additional \$1.2 million in pension contributions that are discussed in detail below); School funding from the City by \$600,000; a new City Workers Comp program that initially will add about \$400,000 to the budget, but which should save money long-term; and anticipated road construction bond payments which are budgeted next year to cost approximately \$250,000. The primary areas that have increased in this budget are discussed in detail below:

- Though the majority of City contracts are still being negotiated at the time of this budget message, we have estimated their potential financial impact into this budget. We have recognized in union negotiations that a content, motivated labor force is important to the City, and its future. We also realized that the City and its taxpayers can only afford to pay its municipal employees so much now, and into the future. We believe that our negotiations have produced, and will produce, reasonable contract settlements in relation to both current economic conditions and what recent labor negotiations from comparable Rhode Island communities have yielded. We do not intend, however, to sell out our future taxpayer generations by negotiating higher pension and OPEB payments down the road in exchange for current salary and healthcare concessions. Additionally, we are looking to structure our contract settlements so that all of our City and School Department contracts will not expire at the same time. Having all contracts expire at once is difficult to financially plan for, not to mention negotiate.

- One of our top priorities in the City, is public safety. For a good percentage of our residents, there is nothing more important. To ensure that we maintain our high standards for public safety excellence we need to alleviate the long standing understaffing in our public safety departments. While our budget calls only for an additional two officers increase for our Police Department, with our Fire Department staffing remaining flat with last year's budget, we know that in reality both departments have recently operated at understaffed levels due to unexpected injuries, sicknesses and retirements. In this budget, we plan to bring both our Police and Fire Departments back to adequate, budgeted staffing levels, and to keep them there through timely recruitment of new members. While these additional public safety positions will help reduce overtime, they will also allow our police officers and firefighters to be less fatigued to better accomplish the important, protective jobs that they are charged with. Our City will be an even safer place to live, work and do business.
- Our School Department is again requesting that the City provide additional financial support towards their operations, which include four union contracts that expire at the end of fiscal 2016/2017. I am recommending in this budget that the City contribute an additional \$600,000 in School funding, as well as another \$200,000 to be earmarked for School capital. The added City funding, combined with increased School state aid of approximately \$2.4 million, helps to push fiscal 2017/2018 School revenues nearly 3.9 percentage points higher than they were last year. Despite the substantial state funding increase to our School Department, there is an enhanced need this budget year for the City to also incrementally fund our schools because they are in the final year of the state's accelerated school funding formula, and no further annual increases in state aid are anticipated. Unless something changes with state funding, all future School Department operating increases will be borne by City taxpayers from the General Fund, and we do not want to be in a situation where these increases extend beyond the City's ability to maximally raise taxes. We need to plan for the worse with regard to state funding for our schools, and to collectively tighten our belts to avoid future fiscal distress.
- One aspect of City life that our residents express concern about is the poor condition of our roads. For years they have been neglected, especially during the period of time when our City experienced financial distress and was under state oversight. We have tried in recent years to make up for these years of disrepair, and have cumulatively allocated several million dollars to fix some of our roads, but we have not been able to make a dent in what is required. We are anticipating in this budget that our voters will approve up to \$1.5 million in bonding that will be designated to fix our roads, and that we will be able to bond in \$3.0 million increments over a five year period. Fiscal 2017/2018 will represent the first such \$3.0 bonding increment, and interest and principal next year for roads will cost us approximately \$250,000. The reason that we are planning to bond over a five year period is that we have been advised by our Engineering Department that it is unlikely that we will have the physical capacity to repair more than \$3.0 million of roads per year. We do believe, however, that after this five year period, we will have the finest roads in the state for years to come.
- We plan in fiscal 2017/2018 to fully fund our pension ARCs, and to make a substantial contribution towards funding our OPEB liability. Meeting our pension requirement was made more difficult this budget year when we learned from our newly appointed actuarial firm for our Police and Fire Retirement Plan that our long-time prior actuary had not been adequately accounting for the "Longevity" payment liability in the Plan, and had been using an out-of-date mortality table to account for retiree life expectancy. After these actuarial deficiencies were addressed by our new actuarial firm, it was determined that our Plan was again in "critical status" because it was only 54.8% funded (as opposed to 60% funded for the prior year), and that our new annual required contribution (ARC) to fully fund the Plan within twenty years had increased by over \$1.2 million from the prior year. Such an increase to the pension ARC would alone have increased the fiscal 2017/2018's tax rate by nearly 1.7 percentage points. Rather than overburden our taxpayers, we made the decision to instead reduce our additional OPEB contribution by \$1.2 million. We had for the past four years been contributing our full OPEB ARC into a trust, something that the state does not yet mandate, and that very few communities in Rhode Island have done. Even with this year's OPEB contribution

- One of our top priorities in the City, is public safety. For a good percentage of our residents, there is nothing more important. To ensure that we maintain our high standards for public safety excellence we need to alleviate the long standing understaffing in our public safety departments. While our budget calls only for an additional two officers increase for our Police Department, with our Fire Department staffing remaining flat with last year's budget, we know that in reality both departments have recently operated at understaffed levels due to unexpected injuries, sicknesses and retirements. In this budget, we plan to bring both our Police and Fire Departments back to adequate, budgeted staffing levels, and to keep them there through timely recruitment of new members. While these additional public safety positions will help reduce overtime, they will also allow our police officers and firefighters to be less fatigued to better accomplish the important, protective jobs that they are charged with. Our City will be an even safer place to live, work and do business.
- Our School Department is again requesting that the City provide additional financial support towards their operations, which include four union contracts that expire at the end of fiscal 2016/2017. I am recommending in this budget that the City contribute an additional \$600,000 in School funding, as well as another \$200,000 to be earmarked for School capital. The added City funding, combined with increased School state aid of approximately \$2.4 million, helps to push fiscal 2017/2018 School revenues nearly 5.3 percentage points higher than they were last year. Despite the substantial state funding increase to our School Department, there is an enhanced need this budget year for the City to also incrementally fund our schools because they are in the final year of the state's accelerated school funding formula, and no further annual increases in state aid are anticipated. Unless something changes with state funding, all future School Department operating increases will be borne by City taxpayers from the General Fund, and we do not want to be in a situation where these increases extend beyond the City's ability to maximally raise taxes. We need to plan for the worse with regard to state funding for our schools, and to collectively tighten our belts to avoid future fiscal distress.
- One aspect of City life that our residents express concern about is the poor condition of our roads. For years they have been neglected, especially during the period of time when our City experienced financial distress and was under state oversight. We have tried in recent years to make up for these years of disrepair, and have cumulatively allocated several million dollars to fix some of our roads, but we have not been able to make a dent in what is required. We are anticipating in this budget that our voters will approve up to \$15 million in bonding that will be designated to fix our roads, and that we will be able to bond in \$3.0 million increments over a five year period. Fiscal 2017/2018 will represent the first such \$3.0 bonding increment, and interest and principal next year for roads will cost us approximately \$250,000. The reason that we are planning to bond over a five year period is that we have been advised by our Engineering Department that it is unlikely that we will have the physical capacity to repair more than \$3.0 million of roads per year. We do believe, however, that after this five year period, we will have the finest roads in the state for years to come.
- We plan in fiscal 2017/2018 to fully fund our pension ARCs, and to make a substantial contribution towards funding our OPEB liability. Meeting our pension requirement was made more difficult this budget year when we learned from our newly appointed actuarial firm for our Police and Fire Retirement Plan that our long-time prior actuary had not been adequately accounting for the "Longevity" payout liability in the Plan, and had been using an out-of-date mortality table to account for retiree life expectancy. After these actuarial deficiencies were addressed by our new actuarial firm, it was determined that our Plan was again in "critical status" because it was only 54.8% funded (as opposed to 60% funded for the prior year), and that our new annual required contribution (ARC) to fully fund the Plan within twenty years had increased by over \$1.2 million from the prior year. Such an increase to the pension ARC would alone have increased the fiscal 2017/2018's tax rate by nearly 1.7 percentage points. Rather than overburden our taxpayers, we made the decision to instead reduce our additional OPEB contribution by \$1.2 million. We had for the past four years been contributing our full OPEB ARC into a trust, something that the state does not yet mandate, and that very few communities in Rhode Island have done. Even with this year's OPEB contribution

reduction, we are still providing over \$1.0 million in additional OPRB funding, again far more than most Rhode Island communities are doing. Unfortunately, we had to take from our OPEB contribution to cover our newly discovered, and unanticipated, pension shortfall. We were very fortunate, however, that we had the ability to do so without burdening our taxpayers.

- Like the School Department did this fiscal year, the City has entered into a fully insured Workers Compensation Plan with the Rhode Island Interlocal Trust. Previously, the City was self-insured for Worker's Compensation. As a self-insured plan the City had unlimited and unpredictable liability for Worker's Compensation claims, some of which can extend for years, and potentially cost hundreds of thousands of dollars. Now the City's liability for Worker's Compensation is annually capped at the policy's premium. Additionally, the insurer now picks up all claims administration, and has an incentive to make sure that claims move through the system in a cost efficient manner, and that injured workers return to work as soon as possible. That type of monitoring alone should help reduce our future insurance premiums. Workers Compensation insurance gives the City protection against catastrophic claims. Not having it exposes the City to unlimited work related injury liability. While it may appear to be expensive at the start, we believe that over the years this insurance will prove to be cost effective. In this year's budget, we have conservatively estimated what Worker Compensation insurance will cost us, versus the savings that we will achieve. In future budget years we will have a better handle on its true net costs, and will budget accordingly.
- Reflected in the current budget is the fact that the City will no longer be receiving state funding as a "Distressed Community". While not falling into that category is a positive accomplishment for the City, it did mean that we will not be able to budget the considerable "Distressed Community" state assistance that we have during the past three fiscal years (\$583,000, \$685,000, & \$108,000), and that we had to make up the lost state revenue elsewhere in the budget.

From an economic development view – Strong and successful economic development has been provided through the due diligence and increased time and effort by the City's Planning Department and Economic Development Commission, along with other City departments. Major development projects have either completed construction or permitting. These projects include the Waterfront District's Kettle Point development (62 condominiums and 228 apartments, including a clubhouse), the four story 85,000 square foot University Orthopedics medical office building and surgery space employing approximately 150 individuals, an 80 unit five story apartment complex at Rumford Center, and the Highland Commons Commercial Center off of Route 6 which includes a bank, retail stores and restaurants.

The East Providence Economic Development Commission, a City board, provided a micro-loan funding to Heart Spot Art Center and Gallery for \$10,000. A tax stabilization agreement was approved for a mixed use residential commercial retail property developed by Apiry, LLC in Riverside. Additional economic and development activities include final approval for a new Cumberland Farms store in Kent Heights, the expansion of Jordan's Liquors on Taunton Avenue along with the introduction of National Tire & Battery on the same road. PODS Swim opened its new 12,000 square foot commercial swimming pool facility just this spring. The American Automobile Association (AAA) is nearing completion of their new facility on Wampanoag Trail.

The City launched its new economic development website: [www.eastprovidencebusiness.com](http://www.eastprovidencebusiness.com) this year which complements our municipal webpage, [www.eastprovidence.org](http://www.eastprovidence.org) and the Waterfront District webpage, [www.eastprovidencewaterfront.com](http://www.eastprovidencewaterfront.com). The economic development website educates businesses on why they should come to East Providence. We invite you to take a look.

Further, the City worked cooperatively with the RI Small Business Development Center to host two economic development related seminars in 2017. One seminar was to inform individuals about the process of starting a new business in our State and the other seminar provided assistance on the use of renewable energy to build a strong economy.

Another exciting piece to the revitalization of the City's Waterfront District has been the creation of a seasonal outdoor waterfront concert venue at Bold Point Park. The first class venue is operated by a nationally-acclaimed company, Live Nation and their partner, Rhode Island's Waterfront Productions. The Beach Boys successfully opened the 2017 concert season. This venue will provide another economic catalyst to our growing waterfront.

From the community service and infrastructure improvements view - The City has a strong work force that engages daily with its citizens. The residents of East Providence enjoy trips to the Library, Senior Center, and City parks. Our Senior Center offers 22 assorted programs weekly and an additional 10 programs monthly. The Center serves over 2,200 members and continues to grow. The Police Department responded to 44,252 calls for service. The Fire Department addressed 11,572 calls for service. These two departments are the best in the State and perform so well because of the support from City taxpayers.

The Library system attended to over 220,000 visitors offering circulation of more than 295,000 items. Additionally, 907 programs were offered with an attendance of 16,704 patrons. The Anne Ide Fuller Creative Learning Center in the Kent Heights section opened this year and allows residents the opportunity to develop and refine a skill and pursue technological advances. Our Recreation Department serves over 10,000 residents including programs for Pre-K and youth (summer day camp and food service, monthly evening child care, school vacation day camp, STEM programming, dance, cooking, etc.), adults and seniors (bus trips, mixed fitness classes, yoga in the park, cardio classes, etc.), special needs youth and adults (dine out, mystery rides, summer camp, day trips, dances, etc.) and special events (Winterfest, Turkey Trot, Charity 5K, Dolly Searle Charity Golf Tournament, community garden, Concerts in the Park, etc.). All these events are a collaboration between City employees, residents, and volunteers. In addition, the Recreation Department dedicates a portion of its activity to the operation of East Providence's nationally renowned historical treasure, the Looff Carousel. The Carousel has been a favorite trip for over 12 million riders. The City receives visitors to the Carousel from throughout the country.

The City's infrastructure needs continue to be addressed. The Department of Public Works, along with the Water Department, has overseen the construction of a new six million gallon tank with a new chlorination station, installation of a new 20" water transmission main, and cleaning and lining of water pipelines in the Rumford station. The water tower will be painted and rehabilitated for the first time in twenty years. The Department of Public Works has implemented a new water/wastewater billing system along with monthly billing, provided improvements to the Townie Pride Park and Honor Flight pathway at Veterans Park in Squantum Woods, the construction of a new infield at Kimberly Ann Rock Complex, and reclamation of roadways throughout the City. Additionally, the City expects to enter into energy incentives and programs to go "green", save taxpayer dollars, and use wind and solar power for the benefit of our citizens.

All of these accomplishments cannot be performed without the support, understanding, and cooperation of the City Council, staff, employees of our City and most importantly our residents. As a City, we need to continue to work closely to expand our economic base, address meaningful issues, and prosper through laser focused, goal-orientated ideas. After all, in the words of Danny Thomas, "Success has nothing to do with what you gain in life or accomplish for yourself. It's what you do for others."

Sincerely,

Timothy J. Chapman  
City Manager

## **CITY COUNCIL**

**James A. Briden, Mayor  
Robert Britto, Assistant Mayor  
Joseph A. Botelho, Jr.  
Brian J. Faria  
Anna M. Sousa**

The City Council is made up of five elected officials. One from each of the four wards within the City and one elected at-large. The Mayor and Assistant Mayor are elected by the Council from among its members. The Mayor presides at the Council meetings and is the ceremonial head of City Government. The Assistant Mayor acts as Mayor during the absence or disability of the Mayor. The City Council meets regularly on the first and third Tuesdays of the month except on holidays when an alternate date is set. In July and August, the Council meets once each month.

The City Council determines policy for City government by resolution, ordinance and adoption of the City budget. The Council is instrumental in assisting citizens with questions and complaints regarding the workings of City government.

## **CITY MANAGER**

Timothy J. Chapman  
City Manager

As the City's Chief Executive Officer, the City Manager administers the functions of the City in accordance with Federal and State laws, as well as the City Charter, Ordinances, established policies, and collective bargaining agreements.

The City Manager is responsible for planning and controlling the operations of City government, including all personnel transactions and is charged with the preparation, presentation, and administration of the annual budget as adopted by the City Council. The City Manager prepares status reports and analyzes issues for presentation to the City Council. The City Manager also serves as the City's Public Safety Director, Emergency Management Director, and the Chief Procurement Officer. In addition, the City Manager also serves on numerous boards and commissions where the activities of those organizations could have a significant impact on the City.

The City Manager's Office is staffed by the City Manager and an Administrative Assistant. The City Manager's Office also handles all constituent concerns/requests via phone, email, or walk-ins and is responsible for following up with the appropriate department for resolution. All City Department Heads report directly to the City Manager.

Going forward, the City Manager will continue to administer the five-year fiscal stability plan adopted by the State appointed Budget Commission. The City Manager will strive to implement new ideas to help streamline the business permitting process, utilize new computer software that can improve existing work processes, and identify additional areas for economic development in our City. The City Manager will provide oversight for upcoming roadway infrastructure, energy initiatives, water system improvements, focus on efforts to increase the City's tax base, and continue to promote sound financial management practices.

## **SENIOR SERVICES**

Robert Rock  
Director

The East Providence Senior Activity Center serves individuals 55 years of age and older, or any age and disabled. The center provides directly or makes arrangements for outreach, information, referral, socialization, education, health services, transportation, volunteer opportunities, nutrition, and recreation. The center offers twenty-two assorted programs weekly and an additional 10 programs monthly.

Our Nationally Accredited center has the official recognition that the center meets professional and national standards for senior centers. It also assures older adult consumers, their families and caregivers that we are operating out of a common senior center philosophy. The center currently has a membership of over 2,200 and grows daily.

Our Elder Resource Specialist creates a direct link for the senior and disabled population and their families. She links them to information and services that are available to them such as: Health Insurance/Medicare, Medical Assistance, Food Stamps, Heating Assistance, Housing Options, Social Security, In Home Care, Caregiver's Support Services and more. Resources and information are ample and the Resource Specialist provides a service that is utilized immensely.

The East Providence Senior Activity Center is a state-certified site for diabetes outpatient education classes and individual counseling. The nurse coordinates all health screenings, manages ancillary health office personnel, referrals, and scheduling for registered nutritionists, a registered pharmacist, and laboratory services. She also coordinates all health presentations, facilitates diabetes support group monthly meetings, coordinates influenza clinics each fall, and assesses walk-in clients daily for health assessments/questions/problems.

The center is a meal site for a congregate nutrition program, serving over 18,000 meals last year. Ocean State Dining is a federally funded grant program from the Department of Aging, Title III B funds.

Over eighty volunteers work in the capacity of waitstaff, recreational leaders, cashier, librarians, receptionists and advisory board. Member and volunteer input are greatly valued and serve as a great source of new ideas. The senior center has community partnerships with over fifty different community agencies.

## **INFORMATION TECHNOLOGY**

Kelly Ahrens  
Director

The Information Technology Department supports all computers, telephones and network infrastructure of both the City and School Department. Our staff consists of nine employees, which includes a Director, two Senior IT Managers, three IT Technicians, one Web Developer and an administrative assistant. Our goal is to provide quality technology to improve the business operation of the City as well as enhance the education of our students.

During the past year we worked with several departments adding new software programs. We replaced several core software platforms for Payroll, Water and Municipal Court. We've added an online payment system for utility payments, a new online store and payment processing for the Carousel, and upgraded core switches for the City.

For the upcoming year, we plan on providing better internet access by improving our network infrastructure and deploying a new cloud based E-mail system. We have a successful webpage and social media platform and we plan on continuing to improve outreach and services to residents.

## **OFFICE OF THE CITY CLERK**

Kim A. Casci-Palangio  
City Clerk

The Office of City Clerk is a department of the City which reports to the City Manager for administrative functions. The City Clerk is appointed by the City Council and reports to the City Council for council policy functions.

The Office of City Clerk maintains all required records in accordance with Federal, State and local laws. The City Clerk's Office is also responsible for all vital statistics i.e. births, marriages and deaths, all business licenses, liquor licenses, dog licenses, yard sales and various permits, all probate estate matters, land evidence recordings, the processing of traffic violations, historic records retention, creation and retention of council journals, dockets, records and retention of resolutions and ordinances.

Two courts are located in the City Clerk's Office, the Municipal Court and the Probate Court.

The City Clerk staff consists of the City Clerk, the Deputy City Clerk, Municipal Court Administrator, Probate Court Administrator and three full time Municipal Services Clerks.

The Municipal Court Judge, Municipal Court Bailiff, Municipal Court Sergeant, Probate Judge, Deputy Probate Judge, and two City Sergeants are also considered members of the office, although they are not regular, full time employees.

During the past year, the City's land evidence records dating back to 1964 were made searchable on line. All the historic plat and highway maps which were digitized are now secure in approved preservation mylar folders and will be stored in the Clerk's basement storage area in an enclosed space with an air filtration system to prevent further decay. The City Clerk's Office hosted a records retention workshop. Additionally, the Clerk's Office now maintains the first floor display case with rotating displays provided by local businesses and non-profit groups.

In the year ahead, the Clerk's Office will continue with preservation efforts for historic documents and host a records clean-up date for City Hall departments. The digitization process for records dating from 1964 to our City's inception continues with the goal in the next year to have all land evidence records searchable on line. Additionally, we are continuing our efforts to simplify the process of licensing new businesses in the City, plan to offer e-recording for land evidence recordings and to offer credit card payments for traffic violations.

**FINANCE**  
Malcolm A. Moore  
Director

The Finance Department develops and controls financial management functions of the City of East Providence as delegated in Article IV of the East Providence City Charter. This includes all matters pertaining to the financial operations and financial planning and development of the City to insure fiscal stability.

This year the Finance Division and Purchasing Division were consolidated. The head of the Division is now titled Controller/Purchasing Agent. Payroll was also moved from HR to Tax Collection and will report to the Tax Collector. The Tax Assessment Division remains unchanged. The heads of these divisions are appointed by and report directly to the Director of Finance who in turn reports directly to the City Manager.

The Tax Collection Division is located in Room 104 on the first floor of City Hall. The Tax Assessment Division is located in Room 202 on the second floor of City Hall. The Finance Division has been separated and is now located in three rooms on the second floor of City Hall. The Controller/Purchasing Agent is in Room 203, the Purchasing Clerk is in Conference Room D and the Senior Accountant, Junior Accountant and the Accounts Payable Clerk are located in Room 206.

The State appointed Fiscal Agent was appointed in September 2013 for a period of 5 years. He is housed within the Finance Department and is located in Conference Room C on the second floor of City Hall. As of last year, he splits his time between the City of Woonsocket and the City of East Providence. East Providence and Woonsocket are responsible for 25% of his salary and the State is responsible for the remaining 50%. He has one year remaining in East Providence.

## **PLANNING DEPARTMENT**

Diane M. Feather, AICP  
Acting Director

The City's Planning Department reports to the City Manager. The Planning Department oversees land-use planning, comprehensive planning, review of subdivisions and land development projects, promotes economic development and business assistance, and administers Federal, State and private grants. The Department is also responsible for long-range planning and plan preparation, including the City's Comprehensive Plan. The City's annual Capital Improvement Program is prepared by the Planning Department. The Department administers the implementation of various transportation, open space and recreation projects.

The Community Development Office is part of the Planning Department and is federally funded through the Department of Housing and Urban Development (HUD). The Community Development Office administers the Federal funds which come to the City to make improvements through economic development programs, housing rehabilitation programs for homeowners, infrastructure improvements, and assistance to local City non-profit agencies.

The City's Emergency Management Agency is also housed within the Planning Department and is responsible for all emergency management and hazard mitigation planning, preparation and administration of emergency management grants and coordination with other City departments such as Police, Fire and Public Works during emergency events.

The Planning Department has reviewed several major development projects that are either under construction or have completed their permitting. These projects include the Waterfront District development at "*Kettle Point*" on Veteran's Memorial Parkway with 62 condominiums and 228 apartments, as well as the construction of the 88,000 square foot University Orthopedics building. Outside of the Waterfront Districts, commercial development is also on the increase with significant projects such as the new 75,000 square foot University Medicine building on the Wampanoag Trail, a 5-story, 80-unit apartment building that is part of the Rumford Center complex, and the Highland Commons commercial center, offering a bank, a variety of small restaurants, and retail space options.

The Planning Department worked with State and other City Departments and Waterfront Productions and Live Nation to create a temporary seasonal outdoor waterfront concert venue at Bold Point Park. The first inaugural season kicked off on August 9, 2017 with a successful Beach Boys concert attended by over 2,100 persons. Creating a permanent outdoor concert venue on the waterfront is of high importance to the City to offer a high-quality regional entertainment destination and create a vital economic generator.

## LAW DEPARTMENT

**Gregory Dias**  
**City Solicitor**

The City Solicitor and the Assistant City Solicitors represent the City of East Providence in all litigation in Federal and State courts and all Federal and State administrative agencies. Additionally, the Law Department acts as legal advisors to the City Council, City Manager, all departments and divisions and appointed City boards and commissions in matters ranging from the application of City and State law to union grievances and arbitration matters. The Law Department acts as legal counsel/prosecutor in Rhode Island District Court for all misdemeanor offenses brought by the East Providence Police Department, including the handling of all pre-trials and trials for these offenses as well as code violations prosecuted in Municipal Court. As corporate counsel, they prepare and review all ordinances, resolutions, contracts, leases, easements and other legal documents and render legal opinions on a myriad of questions and also appear before the Liquor Control Administration, Commission for Human Rights, Labor Relations Board, American Arbitration Association and miscellaneous other commissions and agencies of the State and Federal government. As litigation counsel, the attorneys accept service, prepare pleadings and attend court hearings on lawsuits filed against various City agencies. They also regularly attend City Council, Zoning Board of Review, Planning Board, Canvassing Board, Police & Fire Pension Board, and Personnel Hearing Board meetings and are available by request for attendance at meetings of various other City boards and commissions.

## **HUMAN RESOURCES**

Kathleen Waterbury  
Director

The Human Resources Department (HR) serves the leadership and staff of the City of East Providence. The HR Department strives to develop, recommend, and administer human resource programs that support the overall mission and goals of the City. The HR Department presently consists of the HR Director, EEO Officer, and three HR Analysts.

The HR Department is responsible for the recruitment and selection of the best-qualified staff; fostering and actively promoting equal opportunity in employment on the basis of ability to perform work, and eliminating and preventing discrimination on the basis of race, color, religion, sex, sexual orientation, gender identity or expression, age, disability and national origin. HR also develops and administers wage, salary and benefit programs, promotes employee wellness and well-being, and is responsible for adopting and implementing fair and effective workplace policies.

In FY2017, HR completed the successful implementation and rollout of an automated payroll system and converted existing payroll and HR data to ADP software modules. HR developed and disseminated an employee handbook and multiple revised policies to employees and members of boards and commissions. HR conducted both fire and police recruitment concurrently and in addition had the first ever lateral police officer recruitment drive which was deemed extremely successful by the Police Chief. In FY17 HR recruited and filled positions for every department in the city.

In FY2018, HR will have a focused effort on developing a comprehensive recruitment strategy to attract minority candidates for all positions within the City. Additional areas of focus that will require significant effort will be city-wide training and manager focused training on sexual harassment and workplace violence, FMLA, workers compensation, and interviewing practices to name a few as well as tackling some major compliance issues.

## CANVASSING AUTHORITY

**Leslie Shattuck-Moore**  
**Canvassing Administrator**

The Canvassing Authority is responsible for executing all Elections for the City of East Providence. We are required to maintain accurate records and follow all state and local election laws. The Canvassing Authority provides a pleasant and positive reception to the community in which they are greeted with hospitality and an eagerness to necessitate whatever their needs are with or without privacy.

The Canvassing Authority is a department of the City and reports to the City Manager and a three member Board of Canvassers that are appointed by the City Council but governed by the state. The Canvassing Authority reports to the Office of the Secretary of State, Elections and Civics Division, on matters that relate to the certification of candidates, nomination petitions, mail ballot applications, and updating and maintenance of voter registrations. The Canvassing Authority also reports to the State Board of Elections for voting machines, poll worker training and meetings, interpretations of the State election laws, and any new legislation that may affect Elections. We are the 5<sup>th</sup> largest city in the state with approximately 32,000 voters.

The Canvassing Authority staff consists of an Administrator who oversees one full time clerk and one part time clerk.

## **PUBLIC LIBRARY**

Eileen Socha  
Director

The East Providence Public Library is dedicated to serving the community by providing educational and recreational resources in a variety of formats and programs. There are three locations in the City and the Library offers virtual and face to face community space for conversation, knowledge, equitable access to information, lifelong learning and civic engagement. Material for all ages is available in print, large print, audio and downloadable e-books, CD's and DVD's.

The Library is a City department reporting to the City Manager. It is governed by a 7 member Board of Trustees appointed by the City Council. The Library staff consists of: Library Director, 7 Full time and 4 Part time professional Librarians, Literacy Coordinator, Circulation Coordinator, Coordinator of Learning and Discovery and Assistant, Technical Services Assistant, Youth Services Assistant, 7 Full time and 2 Part time Library Aides, and 1 Student Assistant.

The Weaver Library on Grove Avenue and the Riverside Library at 475 Bullocks Point Avenue are both full service lending libraries offering literacy classes, digital information classes, book clubs, children and teen programming as well as a variety of events on topics ranging from Current Events, to health, to music, to films and so much more. June through September the Weaver Farmers Market, on the Library lawn, showcases local vendors providing farm fresh produce, fish, cheese, eggs, pastry, and healthy snacks, along with plants and flowers.

The Anne Ide Fuller Creative Learning Center, on Dover Avenue, an extension of the East Providence Public Library is a learning commons where residents can develop a new intellectual pursuit or learn a new skill. Designed to enable creativity, driven by the urge to respond to community needs, the Learning Center provides information, technology and learning, the central ingredients to economic performance and prosperity.

Annually, the Library circulates more than 295,000 items and answers nearly 15,000 reference questions. There are 20,159 registered borrowers and visits to the Library total more than 220,000. 907 programs were offered with an attendance of 16,704 for the enjoyment and intellectual stimulation of residents of all ages.

## **DEPARTMENT OF PUBLIC WORKS**

Steve Coutu  
Director

The mission of the Department of Public Works is to efficiently provide essential public works services for the entire community with a commitment to enhance the living and working environment within the City.

The Department of Public Works is headed by the Public Works Director. Staff in the Department consists of 90 full-time employees, and several part-time and seasonal employees. The Department consists of nine (9) Divisions including: Building Inspection, Engineering, Highway and Parks, Refuse and Recycling, Public Buildings, Central Garage, Water Utilities, and Water Pollution Control.

The Department of Public Works provides services to East Providence residents in the areas of streets and sidewalks, parks and grounds maintenance, refuse and recycling collection, engineering services, water distribution, wastewater treatment and collection, and building code and inspection services. In addition, the Department is responsible for the maintenance of all City owned buildings and maintenance of the City's vehicles and equipment. The Department coordinates streetlight repairs with National Grid.

The Building Inspection Division is overseen by the City's Building Official and this office is responsible for the issuance of permits and conducting inspections for all new construction and alterations for buildings within the City to ensure all applicable building codes are met. The Division issues permits including building, plumbing, mechanical, and electrical. This office is also responsible for the review of minimum housing complaints, and zoning issues.

The Engineering Division is headed by the City Engineer and it is responsible for the maintenance and update of roadway, sewer, water, and drainage plans and is the source of information to contractors and the general public on these subjects. The Engineering Division works closely with the Public Works Director and the other public works divisions on developing plans and specifications, and contracts for public works projects. Many City improvement projects including water and sewer line extension, drainage improvements, building improvements, as well as work at the City's wastewater treatment facility are developed with in-house staff eliminating the need for relying on consultants for many projects.

The Highway Division is responsible for the maintenance of 160 miles of City streets and work activities include:

- Snow and Ice removal operations (The City does not rely upon outside contractors for this service)
- Street Sweeping
- Storm Drain Maintenance including catch basin cleaning (3000 catch basins and 1300 manholes), and drain pipe cleaning (66 miles of drain pipe), and clearing brush and debris from over 4.5 miles of open drainage ditches.
- Provides pothole patching, and utility trench repairs on City streets.

- Provides sidewalk improvements for locations damaged by City street trees.
- Provides for new traffic signs and makes repairs to signs as needed.
- Provides and maintains pavement markings for traffic control.
- Maintains 158 City owned and operated traffic signal devices.
- Maintains the former landfill site and operates the compost facility where approximately 5,000 tons of leaf and waste are processed annually.

The Parks Division is responsible for the planning, maintenance and improvement of approximately 320 acres that consists of 15 neighborhood parks and playgrounds, sports field maintenance for 20 ball fields, 5 outdoor tennis courts, 17 outdoor basketball courts, 9 youth soccer and football fields. In addition, Parks oversees and cares for public trees and grounds including traffic islands and public buildings.

The Public Buildings Division is responsible for the daily cleaning, general maintenance, and repairs of the following City owned buildings: City Hall, Municipal Garage Complex, Animal Shelter, Recreation Center, Police Station, Senior Center, Breed Hall, Sweetland House, and the three Library branches. The Division also assists with maintenance and repairs to the four Fire Stations as needed.

The Refuse and Recycling Division is managed by the DPW Programs Coordinator. The Refuse/Recycling Division successfully implemented the Automated Recycling Collection program. Nearly 5,000 tons of recycling materials were collected last year and the City's recycling rate has increased to 27%.

Central Garage or Fleet Maintenance is located at the Municipal Public Works Complex located at 60 Commercial Way. This Division is responsible for the maintenance and repair of approximately 350 pieces of City owned equipment ranging from lawnmowers to snow plow trucks, police vehicles, and all fire apparatus. Most repair work and preventative maintenance is performed with in-house resources. The work performed ranges from oil changes and tire repairs, to complete engine overhauls.

The Water Utilities Division serves to operate and maintain the water distribution system which provides water service to all East Providence residents and businesses. The water distribution system consists of 200 miles of water main of various sizes, all valves and hydrants, two water storage tanks and pumping station located at Kent Heights, and nearly 15,000 water meters.

The City's Wastewater Facility and Collection System is operated and maintained by Suez. The system consists of a Wastewater Treatment Facility and 26 sewer pumping stations as well as 130 miles of sewer pipelines.

## **POLICE DEPARTMENT**

Christopher Parella  
Chief of Police

The East Providence Police Department is a community oriented, full service, public safety agency. Along with the recognized responsibility of enforcing the laws of the City and State, the Police Department's primary objective is to improve the quality of life in East Providence by identifying and addressing public safety and community concerns in a proactive manner. By being proactive, we are better able to maintain public peace, prevent crime, apprehend criminals, and protect the rights of those that live and work here. The Police Department recognizes the importance of working with the community to develop programs to meet this common objective and we are committed to accomplishing our mission in a professional manner that promotes the respect and dignity of all people.

The Department is broken down into four major divisions: the Office of the Chief of Police which is led by Chief Christopher Parella and Deputy Chief William Nebus, the Patrol Division headed by Captain Christopher Franceseoni, the Detective Division led by Captain Bruce Kidmen, and the Administrative/Services Division led by Captain Christopher Michael David. Smaller sub-divisions include: the Traffic Division, School Resource Officers, the Special Reaction Team, the Narcotics/Vice Unit, and the Animal Control Division.

## FIRE DEPARTMENT

Oscar M. Elmasian  
Chief of Department

The Fire Department's primary mission is to protect the lives and property of the citizens of East Providence. This is accomplished through the delivery of emergency medical services, fire suppression operations, and fire prevention activities. Additionally, the Department provides hazardous materials control, technical rescue and maritime safety operations. The Fire Department is a highly cross-trained public safety agency that responded to over 11,000 incidents last year.

The Fire Department is strategically placed within the City to rapidly deploy resources in times of emergency need. East Providence Fire Department stations are located at: Station 1 – 913 Broadway, Station 2 – 329 Bullocks Point Ave., Station 3 – 30 North Broadway, Station 4 – 66 Wampanoag Trail. The Department currently protects the City with 5 engine companies, 2 ladder companies, 3 advanced life support rescues, and several support vehicles.

The Department, when fully staffed, consists of 120 employees whom operate under the supervision of the Chief of Department. The Chief coordinates all emergency medical services, fire control and prevention activities. The Department also assists in master planning with other City departments and agencies to ensure the citizens are afforded the highest degree of protection against natural and man-made disasters. The Fire Department operates within the National Incident Management System which includes working collaboratively with other emergency service personnel at the local, state, and federal levels.

In an effort to increase the professional standard of the Department, our personnel have attained several additional certifications to ensure that the citizens have the best trained personnel. The Department continues to encourage personnel to further their professional development in doing so several members have advanced their pre-hospital care licenses from EMT- Cardiac to the Paramedic level. Also, several personnel continue to take fire suppression and technical rescue courses leading to advanced certifications.

The Fire Department has established itself as a leading public safety agency within the State of Rhode Island. The Department operates as part of the Port of Providence Marine Strike Team which is tasked with protecting surrounding coastal waters. In an effort to further protect the citizens the Department is also a member of the flammable liquid taskforce. Designated as one of the state's regional hazardous materials teams, the Department provides mitigation operations to the East Bay and surrounding areas. In addition the Department is one of a small percentage of departments to have a functioning technical rescue team. Through the American Heart Association Mission Lifeline program our emergency medical services division has been recognized nationally for our ability to recognize and treat heart attack victims.

## **RECREATION DEPARTMENT**

Diane Sullivan  
Director

The East Providence Recreation Department is committed to providing access to affordable recreation programming and cultural outlets and strives to promote healthy lifestyles for residents. For a modest fee, there's a variety of fitness, social and artistic programs for citizens of all ages. One can learn to line dance or take in a show at the PPAC. There are programs promoting quality family time and those that allow parents to have a night out while kids have fun at the Recreation Center! The Pierce Field complex facilities include a walking track, basketball and tennis courts. The site also boasts playground and picnic areas that are very popular birthday party rentals! "Townie Pride Park", located behind Pierce stadium, is one of the newest jewels to the City's parks system that offers serene views of the pond, a walking trail and art work dotting the property.

Funding from local businesses enabled the Recreation Department to produce an outstanding musical lineup during this summer's "Concerts in the Park" series. Nine weeks of entertainment featuring rock, oldies, jazz and folk performers were held at the beautiful Rose Larisa Memorial Park in the city's Riverside section.

The business community again stepped up and sponsored East Providence's Independence Day celebration. The festivities which featured music, food vendors and fireworks display was a spectacular event that drew record crowds!

Partnering with social service agencies and the business sector, the Recreation Department was able to expand the Summer Food Service Program, (SFSP), to four city parks this summer. Youth and teens 18 and younger were served free, nutritious meals weekdays from June 26 – August 25, 2017.

The Recreation Department is working to increase online capabilities in order to make it as convenient as possible for the public to register for activities, obtain permits and rent venues. The results are already being felt as over 75% of last season's WinterFest tree sponsors and Summer Campers registered and made purchases online.

In the coming year, the East Providence Recreation Department is seeking to repair amenities at the Pierce Field complex, expand after school programming and continue to advocate for improved recreation facilities.

## CITY OF EAST PROVIDENCE

## DEPARTMENT OF PLANNING

MEMORANDUM

August 28, 2017

To: Timothy Chapman, City Manager  
City Council

From: Planning Department

Re: Planning Board Recommendation: Fiscal Year 2018 Capital Improvement Budget  
and Five-year Capital Improvement Program

### Introduction

Under the terms of the Revised Ordinances of the City of East Providence (Sec. 2-172), the Planning Board: "Shall recommend to the city manager, for inclusion by the manager in his annual budget, a capital program of proposed capital projects for the five fiscal years, next succeeding the budget year, the proposed projects to be arranged in order of preference with recommendations as to which projects should be constructed and in which year".

This memo includes the recommendation of the Planning Board to the City Council with regard to the Fiscal Year (FY) 2018 Capital Improvement Budget. The Planning Board's recommendation is one of the primary considerations in the formulation of the City Manager's recommended FY 2018 Capital Budget. "Capital Projects", for this purpose, are generally considered to be projects or equipment purchases that are major and non-routine. These include building improvement projects, other infrastructure and drainage projects, and equipment and vehicle upgrades and/or replacement; any of which could have a significant impact on the capital assets of the municipality.

A separate memo and spreadsheet, enclosed with this memo, outline and itemize the complete compilation of Capital Improvement requests for the upcoming five fiscal years starting with FY 2018.

### Financial Findings from the 2018 Capital Improvement Project Solicitation Process

The total estimated cost of all Capital Improvements submitted for FY 2018 is \$8,267,000 (see enclosed 8.5 x 11 FY 2018 Capital Improvement Budget chart). Of this total, \$1,600,000 in grant, bond, and local enterprise funding, has either been approved or applied for, leaving a total of \$6,667,000 in submitted projects for FY 2018 for which City Capital Budget funding is requested.

### Recommendation Capital Budget Allotment for FY 2018

The City Finance Director has recommended a City Capital Budget for FY 2018 in the amount of \$1,500,000.

## FY 2018 Capital Improvement Budget Development and Recommendation Process

The steps in deriving this FY 2018 Capital Budget Recommendation and longer-term Capital Improvement Program information are as follows:

1. The Planning Department, as staff to the Planning Board, solicited capital project proposals for the upcoming five (5) fiscal years with an emphasis on projects for FY 2018. Also requested was a Department/Division priority and a proposed year for execution for each individual project.
2. The Planning Department compiled all requests over five years. This compilation is the basis of an ultimate five-year Capital Improvement Program (see 11" x 17" spreadsheet included in enclosed 5-year Capital Improvement Program memo). On the five-year chart, the list for Year One (FY 2018) became the menu from which projects are recommended for City capital funding for the upcoming fiscal year. Chart 1 is an edit version of the 5-year spreadsheet which indicates all projects proposed for FY 2018 only.
3. The Planning Department prepared an *advisory* memo to the Planning Board regarding their FY 2018 Capital Budget recommendation in consultation with the City Manager and Finance Director. This memo was forwarded to the Planning Board for consideration at their meeting of July 19, 2017, and is enclosed with this recommendation.
4. The Planning Board, at the July 19 meeting, was asked for their comments and input regarding the FY 2018 Capital Budget. The Board has the option to move on a recommendation at the time, or to request more information and make a recommendation at a later meeting. In this case, the Board requested additional information regarding two items on the advisory memo; the Odd Fellows Hall Sale/Rehab Incentive and the Forbes Street Landfill Closure project. These requests required subject-matter experts on both projects who were not present at the meeting, so the Board voted to continue the Capital Budget Recommendation to their August meeting.
5. The requested additional information was made available to the Planning Board for their meeting of August 8, 2017. The Board discussed the items up for consideration and, through the formal motion process, voted to recommend an FY 2018 Capital Improvement Budget as below.

**Note:** The Planning Board-recommended Capital Budget as is subject to modification by the City Manager in coordination with the City's Finance Department, and can be further modified by the City Council. The Capital Budget is ultimately approved by the Council as part of the City's total Fiscal Year 2018 budget.

### FY 2018 Capital Improvement Budget – Planning Board Recommendation

<u>Recommended Capital Improvement</u>	<u>FY 2018 Project Cost</u>	<u>Notes</u>
Planning- Oddfellows Hall Purchase/Rehab Incentive	\$ 100,000	Avoid loss of bldg.

DPW Engineering- Forbes St. Landfill Closure	\$ 100,000	Solar project need
DPW Highway- Road Resurfacing	\$ 550,000	Ongoing program
DPW Highway- Roller Trailers	\$ 10,000	Equip. replacement
DPW-Parks- Pickup Trucks/Scag Mowers	\$ 90,000	Equip. replacement
DPW-Public Bldgs.- Pierce Field Complex	\$ 100,000	Stadium/baseball fields
DPW Public Bldgs - Discretionary	\$ 100,000	Vehicles/equipment
Schools- Silver Spring Parking Lot	\$ 200,000	Replace pavement
<b>Total</b>	<b>\$1,500,000</b>	

Following is a breakdown of the individual items by Department as recommended by the Planning Board.

#### Planning Department

##### Odd Fellows Hall Purchase and Rehab Incentive \$100,000

Located at 63-65 Warren (Map 106, Block 22, Parcel 13), the Odd Fellows Hall is a National Historic Register property that was acquired by the City after the conclusion of tax lien proceedings in 2012. The property, a 2.5 story, 12,000 square foot building is in an extremely degraded condition and is in danger of complete loss if immediate restoration action is not taken. A purchase and rehab proposal has been submitted and is under consideration by the City. Full rehabilitation of the structure is expected to be at least \$2,000,000, with potential funding coming from a variety of public and private funding options. A Development Agreement between the prospective developer of the Odd Fellows Hall and the City represents a cooperative public/private partnership effort to preserve this unique historic building through a complete renovation/restoration effort. The \$100,000 will be utilized in the renovation of the building, with suggested tax revenue generation payback into the City's Capital fund until the \$100,000 is paid off. Protections will be in place to ensure that the City's investment will be dependent upon the developer realizing enough additional financing to pursue the project.

*Note:* The initial City Capital Budget request for this item was \$200,000; after thorough discussion and the receipt of additional information from the Planning Department, the Planning Board chose to retain this item but reduce the recommended FY 2018 Capital Budget allocation to \$100,000.  
*Item submitted by the former Director of Planning and the Acting Director of Planning.*

#### Department of Public Works- Central Garage

##### Fuel Tank Replacement \$250,000

The 20,000-gallon underground fuel storage tank at the Central Garage is mandated by the RI Department of Environmental Management by late December of this year. The tank would be replaced by a DEM-compliant above-ground storage tank. In 2016, \$200,000 in City capital funding was allotted to this project. Thus far, just under \$50,000 has been spent on engineering

services for this project. The total project estimate based on the scope of work, which includes a vapor recovery system and upgrades to the fuel pumping system, is \$400,000. Completion of this project will prevent environmental damage from leaks and will also avoid possible fines from DEM. *Item submitted by the Director of Public Works and the Central Garage Superintendent.*

#### Department of Public Works- Engineering Division

<u>Forbes Street Landfill Closure</u>	<u>\$100,000</u>
---------------------------------------	------------------

Phase Two of the Forbes Street Solar Project is well into the Final Plan process. Phase Two will more than double the electric generation capacity of the total project within a slightly smaller "footprint" due to recent improvements in technology. The revised solar lease from Phase Two of the Solar Project will double the annual lease payment to the City from \$75,000 to \$150,000, but the City is obligated to close and cap the affected portion of the former landfill in order for the project to proceed. The landfill closure project would consist of removing available material, purchasing some new material, grading, and seeding to prevent erosion of the new cap. More than 50,000 square yards of material need to be moved. Also needed is material for the perimeter access roadway and for proper drainage, which would also ensure compliance with DEM requirements as spelled out in the property's overall Master Plan. The requested \$100,000 in FY 2018 Capital funding would be added to prior-approved funding and enable project completion. The increase in lease payments to the City as a result of the Phase Two expansion will pay off the cost of the landfill closure within two years. *Item submitted by the City Engineer*

#### Department of Public Works- Highway Division

<u>Road Resurfacing</u>	<u>\$550,000</u>
-------------------------	------------------

As noted above, there is great need and also substantial local interest in continuing a program of street improvements that has gotten underway over the last couple of years. The recommended funding amount represents the minimum recommended to execute the program of street repair and repaving that is planned by the Public Works Department.

Note: The initial suggested City Capital Budget allocation for this item was \$500,000. The Planning Board chose to take \$50,000 of the \$100,000 reduction in the Odd Fellows Hall request and allocated it to this item, hence the \$550,000 total recommendation. *Item submitted by the Director of Public Works and the Highway Division Superintendent.*

<u>Roller Trailers</u>	<u>\$10,000</u>
------------------------	-----------------

This is one of many requests for funding for equipment replacement that is received as part of the capital improvement planning process annually. This relatively low-budget item provides the Division with a new piece of equipment while financially fitting into this initial advisory total City capital budget recommendation. *Item submitted by the Highway Division Superintendent.*

#### Department of Public Works- Parks Division

<u>Equipment- Pickup Trucks and Seag Mowers</u>	<u>\$90,000</u>
---	-----------------

This expenditure would support the purchase of new equipment for the City's Parks Division to aid in winter snow plowing operations and in daily parks maintenance year-round. As with the DPW Highway Division, multiple equipment replacement requests are received annually as part

of the Capital Improvement Program process, and many of these same requests have been received annually for many years. *Item submitted by the Parks Division Superintendent.*

#### Department of Public Works- Public Buildings Division

Pierce Stadium and Other Various Projects	\$200,000
---	-----------

The Public Buildings Division has a large number of specific capital needs as evidenced by the 5-year Capital Improvement Proposals spreadsheet, most of which appear year after year. The Public Buildings Division has also submitted a request for funding improvements for the 1930s era Pierce Stadium and the Pierce Field Athletic Complex in general, which remains one of the best athletic facilities in Rhode Island and is also used for civic activities including the Fourth of July celebration and the East Providence Heritage Festival. The Planning Board recommends an allotment of \$200,000 for the Public Building Division including \$100,000 for improvements at the Pierce Field complex including the stadium and \$100,000 for other items at the discretion of the Division.

Note: The initial suggested City Capital Budget allocation for the Public Buildings Division was \$150,000, with \$50,000 toward Pierce Field. The Planning Board chose to take \$50,000 of the \$100,000 reduction in the Odd Fellows Hall request and allocate that to Pierce Field improvements, bringing that total to \$100,000 while retaining the Public Buildings discretionary \$100,000 allocation. *Item submitted by the Public Buildings Superintendent.*

#### School Department

Silver Spring School Parking Lot	\$200,000
----------------------------------	-----------

The School Department had made about \$1.4 million in school repairs and improvements across the system in each of the last two fiscal years and is anticipating \$1.5 million or more in building improvements in the upcoming fiscal year. In addition to issues within the school buildings, parking areas and walkways at several schools are in substandard condition. The School Department requests City funding for the repair and, in some places, complete replacement of the parking areas and sidewalks around Silver Spring Elementary School. In at least one location alongside the school, the parking lot is down to dirt and stones and the nearby sidewalk is crumbling away. This creates a situation which is a hazard to users and is well out of ADA compliance. The School Department would work with City Public Works to achieve cost savings for the project by contracting this work out in combination with City street paving work. *Submitted by the School Facilities Director and School Department Finance Director.*

**CITY OF EAST PROVIDENCE**  
**DEPARTMENT OF PLANNING**

---

**MEMORANDUM**

**August 18, 2017**

To: Timothy Chapman, City Manager  
City Council

From: Planning Department

Re: **FYI: Five-Year Capital Improvement Program Summary Enclosure –  
FY 2018 through FY 2022**

**Introduction**

This memo and spreadsheet are enclosed with the FY 2018 Planning Board Recommendation for your information. It includes a generalized discussion of recommended City projects and commodity purchases spanning the upcoming five fiscal years starting with FY 2018 beginning on November 1, 2017, and an itemized spreadsheet compiled from all City Departments and Divisions who submitted capital items for capital budget consideration.

**Financial findings from the FY 2018-2022 Capital Improvement Planning Process**

The total estimated Five-Year Capital Improvement Program expenditure for all City Departments and Divisions for the period from FY-2018 through FY-2022, if every Department-submitted initiative were to be completed, is \$50,704,000. Of this total, the estimated City Net Capital Expenditure would be \$32,354,000. The difference in these figures, totaling \$18,350,000, is accounted for by numerous proposed grant-funded, department-funded, or otherwise alternatively-funded projects. Much of this difference is accounted for by the Water Utilities Division “Water Enterprise Fund” and the 2014 Water Infrastructure bond; but numerous other alternative funding sources also figure into the mix. City staff have worked diligently to seek and acquire funding for many capital projects and this effort will continue.

**Generalized Overview of Submitted Capital Improvement Projects by Department**

**Fire:** Fire Department capital requests center around a long-term program of apparatus and equipment replacement to ensure that the Department's resources are up to date, and that time and money are not wasted down the road due to equipment down-time and the need for multiple emergency purchases. This program includes rescue vehicles, engines, a utility truck, self-contained breathing apparatus and, later down the road, a new Special Hazards Vehicle. The replacement of Rescue 1 is an especially high priority item for the department in the short term. Due to the nature and size of the equipment, fire vehicles are among the most expensive of all City obligations. The Fire Department also has some physical plant shortfalls including the need for new roofing at Station 2 in Riverside and Station 3 in Rumford. It is strongly recommended that capital funding for Rescue 1 and/or the roof repairs be provided in a near-future year. Other

needs at Station 2 are now addressed including a women's rest room and lockers, but this 1974 facility is still in need a number of additional upgrades.

**Planning:** Several Planning Department projects, and Department-supported projects on behalf of other City Departments, are proposed for funding. There remains strong community interest in the resurgence of both Riverside Square and Watchemoket Square, and in improving connectivity from Watchemoket Square to the Gold Point Waterfront District. Expert assistance regarding marketing analysis and pedestrian connections would aid the department in increasing social and economic activity in these neighborhoods. The Department also requests funding to support the sale of the historic Oddfellows Hall at 65 Warren Avenue to save the building and increase its utility and value to potential investors. Other funding requests would support continued improvements at the Riverside Recreations fields behind Riverside Middle School, seed-funding for business streetscape enhancements across the City, building repairs at the Taft Carousel, and a major stormwater improvement project at Sabin Point. The latter project has the potential for significant support from RIDEM and grant proposals are in the works.

**Planning - Emergency Management Agency (EMA):** Nearly all communities large and small in Rhode Island have a dedicated vehicle for Emergency Management use; generally a small truck, SUV or crossover suv suv to facilitate use during and in the aftermath of severe weather. EMA is seeking project proposals for a FEMA grant opportunity with mitigation of terrorism threats as primary focus; such projects could include a cybersecurity initiative, on-site security systems, and communications improvements, among others.

**Police:** Police capital needs largely revolve around needed physical upgrades to the Police Station at 750 Waterman Avenue and to the Police Station property. The Department has outgrown the station from both an administrative and operational standpoint. In the short-term, the Department wishes to renovate and increase the size of the station's garage, and would like to perform what would be a multi-year project to expand the size of the station within the current building footprint to the extent possible. Also requested is rehabilitation and if necessary remediation of the former firing range, as Police now have to rent space for this function.

**Public Works – Engineering:** The Division has proposed two projects for 2018. Phase two of the Forbes Street Solar Project has received Preliminary Plan approval with minimal administrative work needed to issue Final plan approval. What is needed to actually execute the project is the closure/capping of the portion of the landfill where the new solar panels will be installed. Another project suggested for as soon as possible is the installation of pedestrian signals at Warren Avenue and First Street, and at Pawtucket Avenue and Pleasant Street in Rumford. The former project is especially timely given the increase in pedestrian and bike crossings with the new Washington Bridge bike path, and increased activity in general in the Watchemoket Square area. Both projects have been studied and the Division is ready to purchase and install the signals when funding is available. The Division will work with RIDOT officials on the necessary state approvals.

Longer-term Engineering Division proposals include numerous street and drainage-related projects. Among these are the installation of sewer lines where they are lacking in the general area of the corner of Taunton and Pawtucket Avenues, along with improvements to drainage of scattered chronic street flooding locations and across the Southeast Drainage Area.

**Public Works – Highway:** Resident interest in improving the condition of the City's streets remains very high. A quality street network improves perception of the City as a whole for both residents and visitors alike and assists in promoting economic development. East Providence has 160 miles of streets and many are in need of repair and in some cases pavement replacement. Progress has been made in recent years, but there are many more street improvement needs and the establishment of reliable annual funding for street improvements is a step in the right direction. DPW recommends minimum funding of \$1 million per year to continue a program of City-wide improvements.

Other Highway Division Capital Budget requests revolve around the replacement of trucks, plows and other heavy equipment. Planning strongly recommends increased capital funding in future years for the upgrade and replacement of Highway Division equipment.

**Public Works – Parks:** Items on the Parks project/purchase list include the replacement of the overhead lights at the two heavily-used ball fields at Agewum Playground. This includes modernized lighting that would yield significant energy savings, and replacement of the light towers which are currently in a compromised condition. Also requested for funding is the purchase of equipment including new mowers and pickup trucks with dumping inserts. Park and playground projects requested for funding include the installation of ADA-compliant playground "fall protection" material (generally engineered mulch) at several playground sites, repairs to basketball courts, and extensive soccer field improvements at Kent Heights Playground. Annual funding is requested for upkeep and improvements at Pierce Stadium, where the base structure dates back to the original WPA construction from the 1930s.

**Public Works – Public Buildings:** City facilities in need of infrastructure improvements include the Central Garage, City Hall, and buildings at the Senior Center complex. Three new generator installations are getting underway now at the Senior Center, City Hall, and the Central Garage; the former two are supported by FEMA grant funding administered through the Planning Department. Many additional long-standing infrastructure needs for City buildings still exist. Current high-priority projects include boilers and/or other mechanical/HVAC projects at Breed Hall, the Sweetland House and the Senior Center, with mechanical upgrades also needed at the Weaver Library, City Hall and the Garage in the coming few years. All of those upgrades will result in energy cost savings. City Hall optimally should have fireproof carpeting as a public and employee-safety protection measure and to gain compliance with State and Federal fire safety codes. At the Senior Center, window replacement is recommended on the older portion of the building as another energy saving measure.

Local government facilities throughout the country are increasing their resilience with regard to public facility security. Security cameras have been installed at City Hall and in some City Schools, and optimally should be installed at the Garage. Other forms of "target hardening" may move up the priority ranking in the coming years given the ever-evolving national security landscape.

**Public Works – Water Utilities:** The Water Utilities Division is continuing major water infrastructure work funded through Rhode Island Infrastructure Bank bonds including work on the high-rise Kent Heights Water Tank, emergency water supply interconnections, and the continuation of City-wide water main cleaning and lining. The combined water quality project

funded through the bond is designed to ensure excellent drinking water quality for many years into the future. Additional projects involving necessary ongoing maintenance are proposed to be self-funded through the Water Enterprise Fund. These measures include incremental replacement of water meters throughout the City, replacement of valves and other water line components, extension of water mains for new development, and truck/heavy equipment replacement as necessary.

**Recreation:** Department requests center on needs for the City's recreation programming and at the Recreation Center facility. A primary identified recreation need for the City continues to be a new and vastly improved Rec Center. City residents voted for bond issues to support a new Center on two occasions in the past but the project was not executed. Since then, building costs have risen but the Recreation Department still feels that a relatively minimal but functional facility could be built for the original \$5 million, with additional amenities added as funding became available. The Department used some capital funding over the past year to shore up the gymnasium floor at the existing recreation center, which was more of a band-aid than a permanent improvement.

The Department received funding for handicap accessible mini-bus to provide transportation for program users including functional needs individuals for 2017. Funding is requested for the coming year for a new pavilion at Pierce Field, to support the annual summer youth program run by the Department and for general public use.

**Senior Center:** See items as listed under Public Buildings.

**School Department:** The East Providence School System has a myriad of capital needs. The School Department Capital Improvement Plan, available on the School department's website and linked to below, contains a basic list of planned projects and costs by school.

[http://www.epschoolsri.com/filestorage/157/Five\\_Year\\_Plan\\_by\\_School.pdf](http://www.epschoolsri.com/filestorage/157/Five_Year_Plan_by_School.pdf)

Numerous projects have been executed at schools throughout the system over the summer, some of which receive funding assistance from the Rhode Island Department of Education, and others that are Department-funded. A project currently in progress supported by funding from the City's FY2017 capital budget is the replacement of all of the seats in the auditoriums at both Martin and Riverside Middle Schools. Seats are on order and are expected to arrive by the end of September. Seat replacement combined with School Department funded work including painting and new soundproofing panels will complete.

For FY 2018, the School Department has requested funding assistance from the city for the repair and partial re-build of the parking lot at Silver Spring Elementary School. City Public Works and School Department staff are working together to determine whether cost savings can be realized by combining the Silver Spring project with other paving projects that are planned by Public Works.
