October 26, 2016

To the Director of Finance:

In accordance with the provisions of Article V, Section 13, of the City Charter, we Timothy J. Chapman, Acting City Manager and Kim A. Casci-Palangio, City Clerk of the City of East Providence, respectively do hereby certify that the within budget was adopted on October 25, 2016 as the budget for the City of East Providence, for the fiscal year 2016-2017, which begins November 1, 2016 and ends October 31, 2017.

IN ATTESTATION WHEREOF, we have hereby unto set our hands this twenty-six day of October, 2016.

Timothy J. Chapman
Acting City Manager

Kim A. Casci-Palangio
City Clerk

CITY OF EAST PROVIDENCE, RHODE ISLAND

Honorable Mayor and City Council Members:

As a lifelong resident of East Providence, as well as being part of a team of outstanding municipal employees, I am in a unique position to report that the dedication and collaboration exhibited by employees, coupled with the enthusiasm and loyalty from residents, has helped to restore the City's pride. Viewing our City from the outside is one thing, but experiencing it from my prior and new position, has enhanced my perception of how much teamwork goes into making things happen to move our City in a better direction. We have come a long way in a short period of time, and the financial goals along with the community and business incentives presented in the budget, will assist our City to achieve even greater things.

Here is a view of our City:

From a financial outlook - While this budget acknowledges our recent financial problems while under control of the State Budget Commission, it importantly moves us forward in our obligation to provide excellent municipal services to our entire community, as well as to position ourselves for new growth and development that will eventually expand our general fund revenue base to reduce the future tax burden on our residents and businesses. I am happy to report that the City is in a considerably stronger financial position than it has recently been, and has accomplished much to improve operations. You will see that while this budget prioritizes public safety, service delivery, infrastructure improvements, needed capital additions and technological advancements, it does so in a cost efficient manner that only calls for a marginal tax increase of 0.5 percentage points. Finally, you will learn of initiatives and opportunities that will push East Providence to the forefront of Rhode Island communities, and that will make us an even better place to live, work and do business. This budget provides East Providence with a solid fiscal base to help build an exciting and eventful future.

Since the departure of the Budget Commission in 2013, the City has enhanced both its fiscal stability and its delivery of services to residents. Important accomplishments have included:

- A fully funded Budget Reserve Fund that was achieved seven years ahead of schedule. This fund will protect the City against unexpected reductions in tax revenues, or increases in healthcare expenditures.
- Operating surpluses in fiscal years 2013 – 2014; 2014 – 2015; and 2015-2016 (expected).
- A fulfillment of the City's commitment to fully fund its pension ARC, and for the past three years also fully funding its OPEB (Other Post-Retirement Employment Benefits) ARC. The City's full funding of the OPEB ARC is something that only a handful of Rhode Island communities have achieved, and will help to ensure East Providence's fiscal health far into the future.
- Bond Ratings that have been upgraded to "Investment Grade" status from both Moody's (A2) and Standard and Poor's (A) rating services. In doing so, both agencies cited the City's stronger management of its fiscal policies, its improved reserve and liquidity levels, and a reduction in its pension liabilities.
- A reduction in the amount needed by the City for TANs borrowing. This is a measure of the City's cash liquidity. TANs borrowings have drastically been reduced from a high of \$32 million in 2011 to \$20 million in the past year. While the City will have to borrow some level of TANs as long as its fiscal and tax years are different, the lower amounts that are now required reflect a fiscally stronger City, that should result in even higher bond ratings in the future.

- Over \$2 million dollars made in road improvements, as well as other significant dollars invested in City infrastructure.
- Important improvements in the City's website that communicates relevant news and updates to our residents and businesses in a faster and more comprehensive manner.

The proposed 2016 – 2017 year budget will allow the City to move forward with important initiatives in a fiscally responsible manner. I have removed nearly \$3.1 million from the proposed departmental budgets submitted to me because I believe that we can run our operations efficiently and accomplish more with less taxpayer dollars. The proposed budget calls for a \$2.0 million (2.8 percentage points) increase from the prior year's budget in general fund operating expenditures. Most of that increase is associated with providing necessary staffing, contractual raises and equipment enhancements for our police (\$1.1 million) and fire (\$527K) departments. Without the proposed 2016 – 2017 increases for public safety, the rest of City general fund departments have a combined year-over-year expenditure budget increase of only \$333K (0.9 percentage points). To fund our proposed 2016 – 2017 budget, I am requesting an overall tax increase of one-half percentage point (0.5%). This modest tax increase will help support the following 2016 – 2017 City initiatives:

- We plan to help alleviate the understaffing in our public safety departments, most critically in our Police Department, where seven additional officer positions are budgeted. While these additional public safety positions will help reduce overtime, they will also allow our police officers and firefighters to be less fatigued to better accomplish the important, protective jobs that they are charged with. Our City will be an even safer place to live, work and do business.
- We will in fiscal 2016 – 2017 introduce significant upgrades to our information technology platforms that will include the implementation of our new payroll, HR and water/wastewater software systems. The new water/wastewater software will allow us to institute monthly billing for these utilities which will make it easier for our residents to budget, and pay, for them. It will also provide us with better water usage tracking capabilities, and with improved capability to handle resident water issues. Our upgraded technology platforms will also make it much easier for our residents to pay all of their tax and water/wastewater bills online, and will give them immediate on-line access to payment histories, due date notifications and other important data. Our goal is to be technologically enhanced with regard to all municipal operations.
- We plan to expand our library events and programming, and begin operation of the Fuller Creative Learning Center. We also plan to enhance programming at our Senior and Recreation Centers.
- We will direct approximately \$1.4 million towards capital acquisitions and infrastructure enhancements. This includes funds for the (less of three new fire trucks; road repaving; acquiring a passenger bus for the Recreation Department; and replacing auditorium seating in two of our middle schools. More importantly, our Planning Department and Planning Board have identified our immediate and longer-term capital needs in their recently submitted Five Year Capital Plan. It is our intention to annually fund our annual capital needs, so that our equipment will not age all at once, putting our residents and employees at risk.
- We plan in 2016 to fully fund both our pension and OPRB ARCs. We will be only one of a handful of Rhode Island communities who will have made the prudent financial decision to fund both. Future East Providence generations will not be burdened by contractual obligations made by us.

- We will in 2016 – 2017, seek to improve our bond rating from Standard and Poor's. Our City is in solid financial shape, and we will work hard to make sure that the financial community is aware of that fact. A higher bond rating will make us more attractive to business and residents who are looking to either establish, or relocate, themselves.

From an economic development vista – East Providence is becoming a preferred destination for businesses. The City recently welcomed a new 75,000 square foot medical office building, including primary tenant University Medicine. The office building expects to employ 120 individuals. In addition, the City welcomed a Bank RI branch, Moe's Southwest Grill, IHOP, and Pet Valu into the new development at 77 Highland Avenue, the AAA Northeast facility at 10 River Road has commenced development, and an 82,000 square foot medical office building for University Orthopedics located within Kettle Point on Veterans Memorial Parkway is being constructed. The City anticipates more than 100 new jobs alone at the University Orthopedics medical office location upon completion. Also, PLC Fixtures relocated their facilities from Lincoln, RI to 275 Ferris Avenue. Aspen Aerogels celebrated completion of its third manufacturing line at the facility on Dexter Road. The \$30 million dollar expansion is an integral step in the company's long term strategy for growth and will expand its manufacturing capacity at the Aspen Aerogel's plant by 25% to meet the increasing customer demand.

The City, through the assistance of the East Providence Economic Development Commission, completed loan funding to PODS Swim (to complete a 12,000 square foot commercial swimming pool complex), Uncle Tony's Pizza & Pasta (for renovations to its new location at 260 Newport Avenue), Borealis Coffee (for renovations to the former Riverside Square train depot building at 250 Bullocks Point Avenue), and Coast Modern Construction (for renovations to create a live/work facility for local artisans at 110 King Philip Road). Additionally, tax stabilization agreements were approved for Scott's Volkswagen (construction of a new body shop), Rumford Center (construction of an 80 unit apartment building), PODS Swim, Uncle Tony's Pizza & Pasta Restaurant, and Coast Modern Construction.

The City is glad to report that significant progress has been made at the mixed-use development projects at Village on the Waterfront and Kettle Point. Both developments are located on Veterans Memorial Parkway on the City's Waterfront and have created and will continue to generate hundreds of temporary construction jobs.

The City Council, with the hard work of the Planning Department and Planning Board, adopted city-wide zoning amendments adding new land uses including businesses, arts, entertainment, cultural and mixed-uses. These amendments will strengthen the City's economic base and economic vitality, particularly in older commercial corridors, and long-vacant land and structures.

It is clear that more and more businesses are recognizing that East Providence is a vibrant and safe community for them to relocate, start-up, and expand. To facilitate further business development, our Planning Department will, during the next year, implement a new website that will be geared towards helping businesses choose East Providence as their destination. Our Planning Department is also planning to initiate a market study to help revitalize the Riverside Square area. Business expansion helps to lower tax rates for everyone, and more people in our City helps our restaurants and other retail facilities.

From the community scene – For any good City to thrive, there needs to be successful interaction and relationships between the residents and City employees. In East Providence, we have worked hard in fostering that thriving connection. The Library system enjoyed 245,000 visitors offering multiple learning, educational, and recreational services. Our Senior Center served a membership of over 2,100, providing a host of varied programs to one of the largest senior populations in the State. The Fire Department handled over 11,000 service calls during the past year. The Police Department was able to respond to 54,109 calls for service.

Recreation further strengthens the bond between our City and its residents. We have a top notch Recreation Department that serves over 10,000 of our residents in a wide variety of activities from sports leagues, classes, holiday events, and festivals. The focal point of recreation in our City is the Lcoff Carousel, a venerable institution that to date, has had over 11.6 million riders, and counting. Our Carousel remains a favorite not only for our residents, but also for thousands of visitors who come from across the country to visit this historic landmark.

Thank you to the City Council, staff, and employees for supporting, cooperating, and accomplishing the improvements and ideas necessary for good government. I began my letter talking about teamwork, and I am confident that our coming year will be one where our City employees, Council, residents, and businesses work even closer together to make East Providence even greater. Our City has the employees available to continue to build and maintain a successful team. In the words of Helen Keller, “Alone we can do little, together we can do so much.”

Sincerely,

Timothy J. Chapman
Acting City Manager

CITY OF EAST PROVIDENCE

CITY COUNCIL

Thomas A. Rose, Jr., Mayor
Helder J. Cunha, Assistant Mayor
Tracy A. Capobianco
Robert Britto
Timothy J. Conley

The City Council is made up of five elected officials. One from each of the four wards within the City and one elected at-large. The Mayor and Assistant Mayor are elected by the Council from among its members. The Mayor presides at the Council meetings and is the ceremonial head of City Government. The Assistant Mayor acts as Mayor during the absence or disability of the Mayor. The City Council meets regularly on the first and third Tuesdays of the month except on holidays when an alternate date is set. In July and August, the Council meets once each month.

The City Council determines policy for City government by resolution, ordinance and adoption of the City budget. The City Council is instrumental in assisting citizens with questions and complaints regarding the workings of City government.

CITY MANAGER

Timothy J. Chapman
Acting City Manager

As the City's Chief Executive Officer, the City Manager administers the functions of the City in accordance with Federal and State laws, as well as the City Charter, Ordinances, established policies, and collective bargaining agreements.

The City Manager is responsible for planning and controlling the operations of City government, including all personnel transactions and is charged with the preparation, presentation, and administration of the annual budget as adopted by the City Council. The City Manager prepares status reports and analyzes issues for presentation to the City Council. The City Manager also serves as the City's Public Safety Director, Emergency Management Director, and the Chief Procurement Officer. In addition, the City Manager also serves on numerous boards and commissions where the activities of these organizations could have a significant impact on the City.

The City Manager's Office is staffed by the City Manager and an Administrative Assistant. The City Manager's Office also handles all constituent concerns/requests via phone, email, or walk-ins and is responsible for following up with the appropriate department for resolution. All City Department Heads report directly to the City Manager.

Going forward, the City Manager will continue to administer the five-year fiscal stability plan adopted by the State appointed Budget Commission. The City Manager will strive to implement new ideas to help streamline the business permitting process, utilize new computer software that can improve existing work processes, and identify additional areas for economic development in our City. The City Manager will provide oversight for upcoming roadway infrastructure and water system improvements, focus on efforts to increase the City's tax base, and continue to promote sound financial management practices.

SENIOR SERVICES

Robert Rock
Director

The East Providence Senior Center serves individuals 55 years of age or older, or any age and disabled. It provides directly, or makes arrangements for outreach, information, referral, socialization, education, health services, transportation, volunteer opportunities, nutrition, and recreation.

Our Nationally Accredited center has the official recognition that the center meets professional and national standards for senior centers. It also assures older adult consumers, their families and caregivers, that we are operating out of a common senior center philosophy. The Center currently has a membership of over 2,100 and grows daily.

Our Elder Resource Specialist creates a direct link for the senior and disabled population and their families. She links them to information and services that are available to them such as: Health Insurance/Medicare, Medical Assistance, Heating Assistance, Social Security, In Home Care, Caregiver's Support and more. Resources and information are ample and the Resource Specialist provides a service that is utilized immensely.

The Center is a state-certified site for diabetes outpatient education classes and individual counseling. The nurse coordinates all health screenings, manages ancillary health office personnel, referrals, and scheduling for; registered nutritionists, a registered pharmacist, and laboratory services. She also coordinates all health presentations, facilitates diabetes support group monthly meetings, coordinates influenza clinics each fall, and assesses walk-in clients daily for health assessments/questions/problems.

The Center is a meal site for a congregate nutrition program. Ocean State Dining is a federally funded grant program from the Department of Aging, Title III B funds.

Over one hundred volunteers work in the capacity of wait staff, recreational leaders, cashier, librarians, receptionists and advisory board. Member and volunteer input are greatly valued and serve as a great source of new ideas. The Center has community partnerships with over forty-five different community agencies.

INFORMATION TECHNOLOGY

Kelly Ahrens
Director

The Information Technology (IT) Department supports all technology operations for City and School Departments. Our staff consists of ten employees including a Chief Information Officer (CIO), two Senior Network Managers, four IT Technicians, an Online Content Developer and two administrative assistants. Our goal is to provide timely and professional technical support to over 1500 employees working in our city and schools each day.

In the City, we provide 24 hour support to all City Departments. We currently support over 300 computers including desktop, laptop, iPads, Android, iPhone, and Panasonic Toughbooks for Public Safety. We also support the phone, network and camera systems in all buildings. We operate a secure roaming network for our Police and Fire operational vehicles with a virtualized system with two physical data centers. IT supports City Hall operations including online water, tax and utility payments, finance and payroll operations, plus storage and email for 300 employees. We have introduced a mobile app for the City for both iPhones and Android and plan to continue building our online campaign updating our website and utilizing social media to promote the City.

We have 2500 computers, laptops and mobile devices in our schools. Our classrooms are well-equipped to integrate technology and we offer multiple media devices for integration at all grade levels including Smart Boards, document cameras, LCD projectors, Chromebooks, iPads, and laptop carts. All of our schools are fully wireless and capable of supporting high capacity access to the internet from all classroom locations. We integrate and support both Windows and Apple technology and support teachers in their quest to personalize and enhance the curriculum with technology. The IT Department is responsible for PARCC testing, Rhode Island State Reporting, the Student Information System, Point of Sale System, Busing/Transportation System, Security Camera Support, email and cloud storage for 900 employees and 5400 students.

OFFICE OF THE CITY CLERK

Kim A. Casci-Palangio
City Clerk

The Office of City Clerk is a department of the City which reports to the City Manager. The City Clerk is appointed by the City Council.

The Office of City Clerk maintains all required records in accordance with Federal, State and local laws. The City Clerk's Office is also responsible for all vital statistics ie: births, marriages and deaths, all business licenses, liquor licenses, dog licenses, yard sales and various permits, all probate estate matters, land evidence recordings, the processing of traffic violations, historic records retention, creation and retention of council journals, dockets, records and retention of resolutions and ordinances.

Two courts are located in the City Clerk's Office; the Municipal Court and the Probate Court.

The City Clerk staff consists of the City Clerk, the Deputy City Clerk, Municipal Court Administrator, Probate Court Administrator, three full time Municipal Services Clerks, and one temporary part time clerk.

The Municipal Court Judge, Municipal Court Bailiff, Municipal Court Sergeant, Probate Judge, Deputy Probate Judge, and two City Sergeants are also considered members of the office, although they are not regular, full time employees.

During the past year, the City's land evidence records dating back to 1964 were made searchable on line. All the historic plat and highway maps which were digitized are now secure in approved preservation mylar folders and will be stored in the Clerk's basement storage area in an enclosed space with an air filtration system to prevent further decay. Additionally, the Clerk's Office now maintains the first floor display case with rotating displays provided by local businesses and non-profit groups.

In the year ahead, the Clerk's Office will continue with preservation efforts for historic documents, host a records retention seminar, as well as organize a records cleanup day for City Hall. The digitization process for records dating from 1964 to our City's inception continues with the goal in the next year to have all land evidence records searchable on line. Additionally, we are continuing our efforts to simplify the process of licensing new businesses in the City, plan to offer e-recording for land evidence recordings and to offer credit card payments for traffic violations.

FINANCE

Malcolm A. Moore
Director

The Finance Department develops and controls financial management functions of the City of East Providence as delegated in Article IV of the East Providence City Charter. This includes all matters pertaining to the financial operations and financial planning and development of the City to insure fiscal stability.

The Finance Department is organized into Finance, Purchasing, Tax Assessment and Tax Collection. The heads of these divisions are appointed by and report directly to the Director of Finance who in turn reports directly to the City Manager.

The Finance Director and Tax Collection are located on the first floor of City Hall. The offices of Assessment, Accounting and Purchasing are located on the second floor of City Hall.

PLANNING DEPARTMENT

Jeanne M. Boyle
Director

The Planning Department is a department of the City and reports to the City Manager. The Planning Department oversees land-use planning, review of development projects, economic development and business assistance, and administration of Federal, State and private grants. The Department is also responsible for long-range planning including the preparation of the City's Comprehensive Plan and other required plans. The Department administers the implementation of various transportation, open space and recreation projects.

The City's Emergency Management Agency is also housed within the Planning Department and is responsible for all emergency management and hazard mitigation planning, preparation and administration of emergency management grants and coordination with other City departments such as Police, Fire and Public Works during emergency events.

The Community Development Office is part of the Planning Department and is federally funded through the Department of Housing and Urban Development (HUD). The Community Development Office is charged with administering the federal funds which come to the City to make improvements through economic development programs, housing rehabilitation programs for homeowners, infrastructure improvements, and assistance to local City non-profit agencies.

The Planning Department has been involved with several major development projects that are either under construction or have completed their permitting processes. These projects include the 600 unit Village on the Waterfront development on Veteran's Memorial Parkway and the Kettle Point development, a 400 unit project which is also located on Veteran's Memorial Parkway. Both of these projects are located in the City's Waterfront District. Outside of the Waterfront District, commercial development is also on the increase with significant projects such as the new 75,000 sf medical office building on the Wampanoag Trail, the 77 Highland Avenue retail center under construction, and the 180,000 sf Igus manufacturing facility on Ferris Avenue which was recently completed.

LAW DEPARTMENT

Timothy J. Chapman
City Solicitor

The City Solicitor and the Assistant City Solicitors represent the City of East Providence in all litigation in Federal and State courts and all Federal and State administrative agencies. Additionally, the Law Department acts as legal advisors to the City Council, City Manager, all departments and divisions and appointed City boards and commissions in matters ranging from the application of City and State law to union grievances and arbitration matters. As corporate counsel, they prepare and review all ordinances, resolutions, contracts, leases, easements and other legal documents and render legal opinions on a myriad of questions. They also appear before the Liquor Control Administration, Commission for Human Rights, Labor Relations Board, American Arbitration Association and miscellaneous other commissions and agencies of the State and Federal government. As litigation counsel, the attorneys accept service, prepare pleadings and attend court hearings on lawsuits filed against various City agencies and also handle the prosecution of code violations in Municipal Court as well as the prosecution of criminal violations in Sixth Division District Court. They also attend City Council, Zoning Board of Review, Planning Board, Minimum Property Standards Board of Review, Building Board of Standards and Appeals, and Personnel Hearing Board meetings and are available by request for attendance at meetings of various other City boards and commissions.

The Law Department attorneys and staff attend the Attorney General's Open Government Summit held each year at the Roger Williams School of Law in Bristol which focuses on achieving a more open government through education and open dialogue. This summit is an important part of that education and discussion strategy and focuses on the key elements of open government in this State: the Access to Public Records Act and the Open Meetings Act. Recent developments at the Department of Attorney General, the Rhode Island Courts and the Rhode Island General Assembly are also emphasized.

HUMAN RESOURCES

Raymond Benoit
Acting Director

The Human Resources Department (HR) serves the leadership and staff of the City of East Providence. The HR Department strives to develop, recommend, and administer human resource programs that support the overall mission and goals of the City. The HR Department presently consists of the HR Director, EBO Officer, three HR Analysts, and one part time seasonal HR Clerk.

The HR Department is responsible for the recruitment and selection of the best-qualified staff; fostering and actively promoting equal opportunity in employment on the basis of ability to perform work, and eliminating and preventing discrimination on the basis of race, color, religion, sex, sexual orientation, gender identity or expression, age, disability and national origin. HR also develops and administers wage, salary and benefit programs, promotes employee wellness and well-being, and is responsible for adopting and implementing fair and effective workplace policies.

In FY2016, HR took on the City payroll function and purchased software from ADP allowing us to go paperless and provide immediate information for employees, eliminate filing triplicate copies of leave requests, manual filing, and mailing pay stubs. This is in the implementation stage with the goal of achieving substantial cost savings in the near future. HR conducted both Fire and Police recruitment drives, partnering with each department to improve the processes. HR also filled a multitude of open positions and administered five promotional exams for Police and Fire.

HR implemented the Employee Assistance Program (EAP) and online training through Safe Personnel, providing a multitude of training platforms, resulting in a more educated work force. HR audited employee health coverage, requiring recertification and produced 1095 C (done manually) for tax purposes, ahead of the deadline for the government's Affordable Care Act, and we are now in compliance. The HR staff has been cross-trained and now has subject matter experts in the office in order to provide assistance to employees city-wide.

In FY2017, HR will continue to partner with EPPD and EPFD to develop a comprehensive recruiting strategy to attract and retain minority candidates for entry level fire personnel and police officers. In addition, HR will continue to develop a complimentary strategy to attract sworn officers to effectively staff the police and fire departments to ensure optimal public safety and enhance community relations with the citizens of EP. Additional areas of focus that will require significant effort will be city-wide training and manager focused training for FMLA and Workers Compensation, to name a few. HR will continue focusing on our new wellness program, partnering with employees from all departments which includes vaccinations, blood pressure clinics and healthy lifestyle choices, resulting in more productive employees, and boosting morale. HR will continue to monitor federal and state laws to be sure we are in compliance in all areas.

CANVASSING AUTHORITY

Leslie Shattuck-Moore
Canvassing Administrator

The primary goal of the Board of Canvassers is to operate in accordance with Title 17 of the Rhode Island General Laws and the Charter of the City of East Providence. The mission of the Board of Canvassers is to maintain the highest standards of professionalism in the electoral process and for the voters of the City of East Providence. The Board of Canvassers works in conjunction with the Rhode Island State Board of Elections and the Secretary of State's Office to provide the highest level of integrity in all elections. We continue with required upgrades and conversions and to address all election requirements for future primaries and elections.

The Department is responsible for the following: declaration, nominations, preparing lists for candidates, preparing maps for candidates and residents, verification, gathering and compiling of reporting information, legal ads, preparation of mail ballot applications and mail ballot certifications, scheduling and training of poll workers for all voting districts, preparing street listings, voter lists and labels for all districts, purchasing and organizing supplies for all districts, disaffiliation forms, continued voter list upgrades, statewide duplicate list changes, and National Change of Address Voter list maintenance which requires the handling of over 32,000 voter registration forms for each project.

The Board of Canvassers is a bipartisan three member board that is appointed by the City Council but governed by the State. They are responsible for the conduct of all election activities as outlined above.

The Canvassing Authority staff consists of an Administrator who oversees one full time clerk and one part time clerk.

PUBLIC LIBRARY

Eileen Socha
Director

The East Providence Public Library is dedicated to building community by providing educational and recreational resources in a variety of formats and programs. There are three locations in the City and the Library offers virtual and face to face community space for conversation, knowledge, equitable access to information, lifelong learning and civic engagement. Material for all ages is available in print, large print, audio and downloadable e-books, CD's and DVD's.

The Library is a City department reporting to the City Manager. It is governed by a 7 member Board of Trustees appointed by the City Council. The Library staff consists of: Library Director, 9 Professional Librarians, Literacy Coordinator, Circulation Coordinator, Coordinator of Learning and Discovery and Assistant, Technical Services Assistant, Youth Services Assistant, 7 Library Aides, 4 Part Time Employees and 1 Student Assistant.

The Weaver Library on Grove Avenue and the Riverside Library on Bullocks Point Avenue are both full service lending libraries offering literacy classes, digital information classes, book clubs, children and teen programming, as well as a variety of events on topics ranging from America's National Parks, to health, to music, to films and so much more. From June through September, the Weaver Farmers Market, on the Library lawn, showcases local vendors providing farm fresh produce, fish, cheese, eggs, pastry, and healthy snacks, along with plants and flowers.

The new Anne Ide Fuller Creative Learning Center, on Dover Avenue, an extension of the East Providence Public Library is a learning commons where residents can develop a new intellectual pursuit or learn a new skill. Designed to enable creativity and driven by the urge to respond to community needs, the Learning Center provides information, technology and learning, the central ingredients to economic performance and prosperity.

Annually, the Library circulates more than 275,000 items and answers nearly 15,500 reference questions. There are 20,378 registered borrowers and visits to the Library total more than 245,000. 677 programs were offered with an attendance of 14,692 for the enjoyment and intellectual stimulation of residents of all ages.

DEPARTMENT OF PUBLIC WORKS

Steve Coutu
Director

The mission of the Department of Public Works is to efficiently provide essential public works services for the entire community with a commitment to enhance the living and working environment within the City.

The Department of Public Works is headed by the Public Works Director. Staff in the Department consists of 90 full-time employees, and several part-time and seasonal employees. The Department consists of nine (9) Divisions including: Building Inspection, Engineering, Highway and Parks, Refuse and Recycling, Public Buildings, Central Garage, Water Utilities, and Water Pollution Control.

The Department of Public Works provides services to East Providence residents in the areas of streets and sidewalks, parks and grounds maintenance, refuse and recycling collection, engineering services, water distribution, wastewater treatment and collection, and building code and inspection services. In addition, the Department is responsible for the maintenance of all City owned buildings and maintenance of the City's vehicles and equipment. The Department coordinates streetlight repairs with National Grid.

The Building Inspection Division is responsible for the issuance of permits and conducting inspections for all new construction and alterations for buildings within the City to ensure all applicable building codes are met. The Division issues permits including building, plumbing, mechanical, and electrical. This office is also responsible for the review of minimum housing complaints, and zoning issues.

The Engineering Division is headed by the City Engineer and it is responsible for the maintenance and update of roadway, sewer, water, and drainage plans and is the source of information to contractors and the general public on these subjects. The Engineering Division works closely with the Public Works Director and the other public works divisions on developing plans and specifications, and contracts for public works projects. Many City improvement projects including water and sewer line extension, drainage improvements, building improvements, as well as work at the City's wastewater treatment facility are developed with in-house staff eliminating the need for relying on consultants for many projects.

The Highway Division is responsible for the maintenance of 160 miles of City streets and work activities include:

- Snow and Ice removal operations (The City does not rely upon outside contractors for this service)
- Street Sweeping
- Storm Drain Maintenance including catch basin cleaning (3000 catch basins and 1300 manholes), and drain pipe cleaning (66 miles of drain pipe), and clearing brush and debris from over 4.5 miles of open drainage ditches.
- Provides pothole patching, and utility trench repairs on City streets.

- Provides sidewalk improvements for locations damaged by City street trees.
- Provides for new traffic signs and makes repairs to signs as needed.
- Provides and maintains pavement markings for traffic control.
- Maintains 158 City owned and operated traffic signal devices.
- Maintains the former landfill site and operates the compost facility where approximately 5,000 tons of leaf and waste are processed annually.

The Parks Division is responsible for the planning, maintenance and improvement of approximately 320 acres that consists of 15 neighborhood parks and playgrounds, sports field maintenance for 20 ball fields, 5 outdoor tennis courts, 17 outdoor basketball courts, 9 youth soccer and football fields. These include Agawam/Mcello Softball Complex, Hunt's Mills Recreation Area, Rose Larisa Memorial Park, Crescent Park/Looft Carousel grounds, conservation areas, 2 historic cemeteries, traffic islands, 11 large flower planters and part of the Blackstone Valley Bikeway. In addition, Parks oversees and cares for approximately 8,300 public trees located in parks, playgrounds, schools, conservation areas and streets.

The Public Buildings Division is responsible for the daily cleaning, general maintenance, and repairs of the following City owned buildings: City Hall, Municipal Garage Complex, Animal Shelter, Recreation Center, Police Station, Senior Center, Breed Hall, Sweetland House, and the three Library branches. The Division also assists with maintenance and repairs to the four Fire Stations as needed.

The Refuse and Recycling Division is managed by the DPW Programs Coordinator. The Refuse/Recycling Division successfully implemented the Automated Recycling Collection program. Nearly 5,000 tons of recycling materials were collected last year and the City's recycling rate has increased to 27%.

Central Garage or Fleet Maintenance is located at the Municipal Public Works Complex located at 60 Commercial Way. This Division is responsible for the maintenance and repair of approximately 350 pieces of City owned equipment ranging from lawnmowers to snow plow trucks, police vehicles, and all fire apparatus. Most repair work and preventative maintenance is performed with in-house resources. The work performed ranges from oil changes and tire repairs, to complete engine overhauls.

The Water Utilities Division serves to operate and maintain the water distribution system which provides water service to all East Providence residents and businesses. The water distribution system consists of 200 miles of water main of various sizes, all valves and hydrants, two water storage tanks and pumping station located at Kent Heights, and nearly 15,000 water meters.

The City's Wastewater Facility and Collection System is operated and maintained by Suez. The City was the recipient of the 2014 Gold Award from the American Council of Engineering Companies of Massachusetts for Professional Design Excellence.

POLICE DEPARTMENT

Christopher Parella
Chief of Police

The East Providence Police Department is a community oriented, full service, public safety agency. Along with the recognized responsibility of enforcing the laws of the City and State, the Police Department's primary objective is to improve the quality of life in East Providence by identifying and addressing public safety and community concerns in a proactive manner. By being proactive, we are better able to maintain public peace, prevent crime, apprehend criminals, and protect the rights of those that live and work here. The Police Department recognizes the importance of working with the community to develop programs to meet this common objective and we are committed to accomplishing our mission in a professional manner that promotes the respect and dignity of all people.

The Department is broken down into four major divisions: the Office of the Chief of Police which is led by Chief Christopher Parella and Deputy Chief William Nebus, the Patrol Division headed by Captain Michael David, the Detective Division led by Captain Bruce Kidman, and the Administrative/Services Division led by Captain Christopher Francesconi. Smaller sub-divisions include: the Traffic Division, School Resource Officers, the Special Reaction Team, the Narcotics/Vice Unit, and the Animal Control Division.

During the last fiscal year, we added nine new patrol officers and are seeking to add another ten in order to reduce overtime costs and to replace retiring/injured personnel. Over the next year, we would like to continue with interior renovations at department headquarters and focus on repairing or replacing the failing HVAC system. We need to upgrade a small percentage of the police fleet in order to spread future replacement expenses over time, rather than have to replace the fleet in bulk as we have in the past. An additional fleet request has been received from the SRT team for an armored/bullet proof vehicle to protect team members and rescue citizens during high risk active shooter incidents which unfortunately have been occurring countrywide with more frequency.

FIRE DEPARTMENT

Oscar M. Elmasian
Chief of Department

The Fire Department's primary mission is to protect the lives and property of the citizens of East Providence. This is accomplished through the delivery of emergency medical services, fire suppression operations, and fire prevention activities. Additionally, the Department provides hazardous materials control, technical rescue and maritime safety operations. The Fire Department is a highly cross-trained public safety agency that responded to over 11,000 incidents last year.

The Fire Department is strategically placed within the City to rapidly deploy resources in times of emergency need. East Providence Fire Department stations are located at: Station 1 – 913 Broadway, Station 2 – 329 Bullocks Point Ave., Station 3 – 30 North Broadway, Station 4 – 66 Wampanoag Trail. The Department currently protects the City with 5 engine companies, 2 ladder companies, 3 advanced life support rescues, and several support vehicles.

The Department, when fully staffed, consists of 120 employees whom operate under the supervision of the Chief of Department. The Chief coordinates all emergency medical services, fire control and prevention activities. The Department also assists in master planning with other City departments and agencies to ensure the citizens are afforded the highest degree of protection against natural and man-made disasters. The Fire Department operates within the National Incident Management System which includes working collaboratively with other emergency service personnel at the local, state, and federal levels.

In an effort to increase the professional standard of the Department, our personnel have attained several additional certifications to ensure that the citizens have the best trained personnel. In the past year, several members advanced their pre-hospital care licenses from EMT- Cardiac to the Paramedic level. Also, several personnel have taken fire suppression and technical rescue courses leading to advanced certifications.

The Fire Department has established itself as a leading public safety agency within the State of Rhode Island. The Department operates as part of the Port of Providence Marine Strike Team which is tasked with protecting surrounding coastal waters. The Department is designated as one of the state's regional hazardous materials teams, providing mitigation operations to the East Bay and surrounding areas. Our emergency medical services division has been recognized nationally for our ability to recognize and treat heart attack victims through the American Heart Association Mission Lifeline program.

RECREATION DEPARTMENT

Diane Sullivan
Director

The Recreation Department is preparing to launch an online payment system in order to better accommodate residents. A temporary online system was established for the 2016 summer camp registration that was met with positive reviews. The next level is to include online payment capabilities for facility and park permits which are administered by the Recreation Department. Once the online billing system for field permits has been established, the focus will be on enabling online payments for recreation programs, athletic leagues, and special events.

Working closely with the City's Fire Prevention Office, Police Department, Emergency Management, and Department of Public Works, the Recreation Department serves as the point agency for the Independence Day celebration, fall 5K race, and WinterFest. All these events continue to grow and had record attendance numbers this past year.

The Department was awarded a National Environmental Education Foundation, (NEEF), grant that will be applied to developing science, technology, engineering, and math, (STEM), classes during after school Recreation programing.

The Jones Pond project, a soon-to-be passive recreation area located behind Pierce Stadium, is underway. Recreation staff are hard at work assisting with this development and devising an irrigation system for the new plantings.

The Recreation Department sponsored the Summer Food Service Program, (SFSP), at two city parks this summer. Teens and youth 18 and younger were served free, nutritious meals weekdays from June 27 – August 19, 2016. Implemented by the US Department of Agriculture, the SFSP is an extension of the free and reduced lunch program offered to students during the school year.

In the coming year, the East Providence Recreation Department will continue to advocate for improved facilities to meet the growing need for recreational opportunities in the community. The Department is planning to expand the free meals program as well as our partnerships with local businesses and civic organizations in developing fund raising strategies.

CITY OF EAST PROVIDENCE

DEPARTMENT OF PLANNING

MEMORANDUM

August 23, 2016

To: City Council

From: Planning Department

Re: **Recommended FY 2017 Capital Budget and FY 2017-2021 Capital Improvement Program**

INTRODUCTION

Under the terms of the Revised Ordinances of the City of East Providence (Sec. 2-172), the Planning Board: "*Shall recommend to the city manager, for inclusion by the manager in his annual budget, a capital program of proposed capital projects for the five fiscal years, next succeeding the budget year, the proposed projects to be arranged in order of preference with recommendations as to which projects should be constructed and in which year*".

This memo includes the recommendation of the Planning Board to the City Council with regard to the Fiscal Year (FY) 2017 Capital Improvement Budget, and a 2017-2021 five-year Capital Improvement Program. The Planning Board's recommendation is one of the primary considerations in the formulation of the City Manager's recommended FY 2017 Capital Budget. "Capital Projects", for this purpose, are generally considered to be projects or equipment purchases that are major and non-routine. These include building improvement projects, other infrastructure and drainage projects, and equipment and vehicle upgrades and/or replacement; any of which could have a significant impact on the capital assets of the municipality.

This memo is organized as follows:

- A discussion of the FY 2017 Capital Budget and five-year Capital Improvement Program process;
- A brief overview of the financial findings of the process;
- An overview of Department- and Division- submitted FY 2017 capital projects;
- The original FY 2017 Capital Budget recommendation of the Planning Board; and
- The final FY 2017 Capital Budget recommendation of the City Manager, in collaboration with the Finance Department, Planning Board, and Planning Department.

CAPITAL PLANNING PROCESS

The steps, to this point, in deriving the FY 2017 Capital Budget Recommendation and longer-term Capital Improvement Program are as follows:

1. City Department Heads met with the City Manager at a capital budget kick-off meeting on April 1, 2016. The City Manager and Planning Department then met with individual Department heads over the next month to formally solicit their capital needs including projects and items for purchase, generally with a value of over \$25,000 (though there are a few lower-cost items submitted), going out for the next five fiscal years but with an emphasis on the upcoming fiscal year (in this case 2017). Also requested was a Department/Division priority for each project to be submitted, and a project year for project execution.
2. The Planning Department compiled all requests over five years into a spreadsheet (Chart 2, enclosed). This chart is the basis of a 5-year Capital Improvement Program. On the five-year chart, the list for Year One (FY 2017) became the menu from which projects are chosen for recommendation for City capital funding for the upcoming fiscal year. Chart 1 is an edit version of the 5-year spreadsheet which indicates all projects proposed for FY 2017 *only*.
3. The Planning Department prepared an *advisory* memo to the Planning Board regarding their recommendation to the City Council in consultation with the City Manager and Finance Director. The advisory memo describes in general the types of projects or purchases submitted, by Department or Division, along with a Fiscal-Year 2017 Capital Budget advisory recommendation from the Planning Department to the Board. All of the information in the advisory memo is contained in this memo.
4. Following Planning Board review of this material, the Board, at their July 11, 2016 meeting, was asked for their comments and input regarding the upcoming year's Capital Budget. The Planning Board has the option to move on a recommendation at the time, or to request more information and make a recommendation at a later meeting. The Recommendation from the Planning Board to the City Council regarding the FY 2017 Capital Budget is found below on page 7 this memo, and the aforementioned Five-Year Capital Improvement Program (CIP) and budget spreadsheets (Charts 1 and 2) are all enclosed with the memo.

Note: Following Planning Board approval, the Capital Budget as is subject to modification by the City Manager in coordination with the City's Finance Department prior to review and approval from the City Council. The City Manager's recommended FY 2017 Capital Budget for City Council consideration is outlined and described beginning on Page 8 of this document.

FINANCIAL FINDINGS FROM THE 2017 CAPITAL BUDGET / 2017-2021 CAPITAL IMPROVEMENT PROGRAM SOLICITATION PROCESS

The total estimated cost of all Capital Improvements submitted for FY 2017 alone would be \$17,240,967. Of this total, \$7,088,000 in grant, bond, and local enterprise funding, has either been approved or applied for, leaving a total of \$10,152,967 in submitted projects for FY 2017 for which City capital budget funding is requested.

The City Finance Director has recommended a capital budget for FY 2017 in the amount of \$1,400,000.

The total estimated Five-Year Capital Improvement Program expenditure for all City Departments and Divisions including the School Department for the period from FY-2017 through FY-2021, if every initiative were to be completed, is \$73,072,980. Of this total, the estimated City Net Capital Expenditure would be \$33,197,835. The difference in these figures, totaling \$39,875,145 is accounted for by numerous proposed grant-funded, department-funded, or otherwise alternatively-funded projects. Much of this difference is accounted for by the Water Utilities Division "Water Enterprise Fund", the 2014 Water Infrastructure bond, and the Rhode Island Department of Education's School Building Authority Capital Fund; but numerous other alternative funding sources also figure into the mix. City staff have worked diligently to seek and acquire funding for many capital projects in recent years. This effort will continue.

GENERALIZED OVERVIEW OF FY 2017 REQUESTED CAPITAL FUNDING BY DEPARTMENT

Fire: Fire Department capital requests center around a long-term program of apparatus and equipment replacement to ensure that the Department's resources are up to date, and that time and money are not wasted down the road due to equipment down-time and the need for multiple purchases on an emergency basis. Fire has suggested a schedule for replacement that ensures resource reliability and follows accepted nationwide standards. The Department suggests that funding for such a program could be supported through their Rescue Billing Account. For 2017, the Department-recommended program includes thermal imaging equipment and a new utility truck. Already approved for funding with expected project execution in FY 2017 is an upgrade to the Station 2 restroom facility including installing a women's restroom. Also in the pipeline is the acquisition of three fire pumper trucks, scheduled for delivery in the first quarter of calendar year 2017, which has been financed out through 7 years starting with FY 2017. Additional apparatus replacement including rescue vehicles, ladder trucks, and the special hazards vehicle is requested for later years (2018-2021).

Planning: Several Planning Department projects and Planning-supported projects on behalf of other City departments are proposed for funding. There remains strong community interest in the resurgence of both Riverside Square and Watchemoket Square, and in improving connectivity from Watchemoket Square to the increasingly busy Bold Point Waterfront District. The Department also requests funding for structural improvement to the historic Oddfellows Hall at 65 Warren Avenue to save this fine late 19th century building, and to increase its utility and value to potential investors who have shown interest in it. Relatively low-cost additional improvements

have been requested for recent well-received playground projects at Central Avenue/Anna Moniz-John playground and Silver Spring Playground. RIDEM Open Space and Recreation "Small Grants" have been applied for and are pending; City match of 20% of the project cost would be required. Similar grant funding in the "Large Project" (100,000 or more) category has been applied for to support major improvements at the Riverside Recreation Area (DelleFemine Field) at Kent Heights Playground. For more information on these projects, see the Public Works - Parks Division section below. Finally, Planning would like to continue a commercial site pre-permitting initiative getting underway which would facilitate fast-track siting and approval of worthwhile new business and commercial enterprises for the City.

Planning - Emergency Management (EMA): EMA has applied for grants to fund school security projects and aid in cyber-security. Decisions on these applications are pending. Additional projects for which there may at some point be a chance of grant assistance include security enhancements at City Hall. Public Building security in general is a vitally important consideration as noted in the Public Buildings narrative below. Also submitted for consideration are electrical upgrades at the High School to support the full capacity of that facility's generator. The latter project would support storm sheltering operations in the event of a major emergency such as a direct hit from a hurricane.

Police: Police capital needs over the next several years largely revolve around needed physical upgrades to the Police Station at 750 Waterman Avenue and to the Police Station property. The Department has outgrown the station from both an administrative and operational standpoint. In the short-term for 2017, the Department wishes to renovate and increase the size of the station's garage, and would like to embark on what would be a multi-year project to expand the size of the station within the current building footprint to the extent possible. Requested in the longer term is rehab and if necessary remediation of the former firing range as Police now have to rent space for this function.

Police plan to self-fund a BearCat vehicle (Ballistic Engineered Armored Response Counter Attack Truck, formerly referred to as a SWAT vehicle) over the coming year through asset forfeiture resources.

Public Works – Engineering: Engineering Division project proposals for Fiscal Year 2017 include one large-ticket item, that being the replacement of an undersized culvert at the low point of South Broadway near Lee Road where flooding, stream channel erosion, and even partial roadway collapse are increasing concerns during heavy rain events. Longer-term capital project proposals by the Division include numerous street and drainage-related projects. Among these are the installation of sewer lines where they are lacking in the general area of the corner of Taunton and Pawtucket Avenues, along with improvements to drainage at scattered chronic street flooding locations and across the Southeast Drainage Area.

A recent high-priority addition to the Division's list of proposed near-term projects is an engineering study to determine options for slope stabilization along Booth Avenue where it directly abuts Bullocks Cove in Riverside. The daily tidal flow here is causing bank erosion which, if left unchecked, could result in Booth Avenue collapsing into the cove at this location.

Already funded and ready for execution in FY 2017 is the installation of pedestrian signals at the corner of Pawtucket Avenue and Pleasant Street in Rumford, and along Warren Avenue where the East Bay Bike Path crosses over to First Street.

Public Works – Highway: Public input from Comprehensive Plan Ward Meetings, a survey performed for the Plan, and resident comments at other Public Meetings illustrate that there is strong interest in improving the condition of the City's streets. A quality street network improves perception of the City as a whole for both residents and visitors alike and assists in promoting economic development. East Providence has 160 miles of streets and many are in need of repair and in some cases pavement replacement. After a period of virtually no funding for such projects, some improvements have been made in the last few years. Still, much needs to be accomplished and the establishment of reliable annual funding for street improvements is one step in that direction. The Engineering Division recommends minimum funding of \$1 million per year to kick-start City-wide improvements. Additionally, heavy equipment, like all vehicles, has a certain useful life after which repairs become frequent and increasingly costly. Incremental replacement of such equipment is often cost-effective in the long-term. Public Works heavy equipment generally runs in the six-figure cost range per item.

Public Works – Parks: A high priority project for the Parks division is the multi-phased improvement to the Riverside Recreation Area located along Somerset Avenue and south of Riverside Middle School. There is strong interest in this project from area residents and sports organizations to greatly increase off-street parking, improve the fields, and add amenities to this popular property used for multiple sports. Grant funding for this project is pending. A City match totaling 20% of the grant award would be required to receive the funding, some of which could be "in-kind" match that would help to lower the City's financial burden. Kent Heights Playground is another location where there has been field rehabilitation interest. Grant funding is also pending for that project, though project priority is lower per the 2016 City Council Resolution (Book 25- Resolution 18) regarding to these grant applications. It is also anticipated that the Kent heights project, if funding were successful, would be executed after FY 2017.

Other items on the Parks project/purchase list include the purchase of three pick-up trucks with plows and an infield groomer. Down the road, the Division needs to replace the overhead lights at the two ball fields at Agawam Playground. This would include modernized lighting that would yield significant energy savings, along with replacement of the light towers which are currently in a compromised condition.

Public Works – Public Buildings: City facilities in need of infrastructure improvements include the Central Garage, City Hall, and buildings at the Senior Center complex. While some projects are getting underway including the grant-funded City Hall Generator project, replacement of the broken generator at the City Garage on Commercial Way, and exterior work at the Sweetland House, many long-standing infrastructure needs for City buildings are still there. Current high-priority projects include boilers and/or other mechanical/HVAC projects at Breed Hall, the Sweetland House and the Senior Center, as well as at the Weaver Library, City Hall and the Garage. All of these upgrades result in energy cost savings for the Additionally, City Hall optimally should have fireproof carpeting as a public and employee-safety protection measure and to gain compliance with State and Federal fire safety codes. At the Senior Center, window

replacement is recommended on the older portion of the building as another energy saving measure.

Annual funding is also requested for various projects and general building upkeep at Pierce Field.

Local government facilities throughout the country are increasing their resilience with regard to public facility security given the ever-evolving national security landscape. This category of facility improvement will undoubtedly move up the priority in the coming years. The Public Buildings Division proposes outside cameras at the City Garage as one measure; other upgrades at public buildings are likely to be needed in future years and will need to be considered as part of longer-term capital budgeting.

Public Works – Water Utilities: The Water Utilities Division is continuing major water infrastructure work funded through Rhode Island Infrastructure Bank bonds including work on the high-rise Kent Heights Water Tank, emergency water supply interconnections, and the continuation of City-wide water main cleaning and lining that was first established using Federal “Economic Stimulus” funding. The combined water quality project funded through the bond is designed to ensure excellent drinking water quality for many years into the future. Additional projects involving necessary ongoing maintenance are proposed to be self-funded through the Water Enterprise Fund. These measures include incremental replacement of water meters throughout the City, replacement of valves and other water line components, extension of water mains for new development, and truck/heavy equipment replacement as necessary.

Recreation: Department requests center on needs for the City’s recreation programming and the Recreation Center facility (hereafter, Rec Center). The primary identified recreation need for the City continues to be a new and vastly improved Rec Center. City residents voted for bond issues to support a new Rec Center on two occasions in the past but the project was not executed. Since then, building costs have risen but the Recreation Department still feels that a relatively minimal but functional facility could be built for the original \$5 million, with additional sumnaries added as funding became available.

Meanwhile, the gymnasium floor in the Rec Center is degrading in spots and needs an immediate repair in order to remain usable for sports and activities. Finally, funding is requested for upgrades to the restrooms and the Pavilion at Pierce Field, which is used for the annual summer youth program run by the department.

The Department was approved for funding for FY 2016 to acquire a handicap accessible mini-bus to provide transportation for program users including functional needs individuals. That acquisition is pending.

Senior Center: In addition to items listed above in the Public Buildings section (including a boiler and replacement windows), the Senior Center is in need of a full-service generator. This would allow the Center to perform additional services for seniors that are now limited by the Center’s lower refrigeration capacity during power outages. A fully alternative-powered facility would also

enable its use as an emergency storm shelter during incidents where a shelter is needed, but a large number of users is not anticipated.

School Department: The auditorium seating at both Martin and Riverside Middle Schools dates to the buildings' original construction and both are in a significant state of disrepair. Both buildings need new auditorium seating not only for the student school functions (theater, chorus and band concerts, assemblies, graduations, etc.) but also for citizens who use the auditoriums for functions including public hearings, union events, Fire Department recruitment graduations and private functions (rentals). Seat replacement is currently accomplished by replacing damaged seats with seats in better repair from the back rows, which has resulted in several lost rows of seats in both auditoriums. The cost to replace individual rows of seating incrementally is prohibitive in the long-term. Complete replacement of seating at both facilities is indicated as the preferred and far less expensive way to improve the auditoriums.

On the non-City funding side, the School Department is continuing to chip away at dozens of various immediate health and safety projects with significant financial support from the Rhode Island Department of Education (RIDE) School Building Authority. Over the last two years, most of the exterior egress doors throughout the district have been replaced, and fire alarm upgrades have been performed at nearly every school. Planned additional projects utilizing the School Building Authority program include windows, ceilings, roof repairs, plumbing and electrical work, HVAC replacement, rest rooms, and locker rooms; along with exterior work including parking lot and sidewalk repairs.

Planning Board Recommendation – FY-2017 Capital Budget

Motion

On a motion from Ms. Krista Moravec, seconded by Mr. Christopher Grant, the Board voted 4-0 to recommend a Capital Budget for Fiscal Year 2017 as listed below, and to recommend the five-year Capital Improvement Program as indicated in the enclosed FY 2017-21 spreadsheet and Capital Improvement Program Document.

<u>Planning Board Recommended Capital Project</u>	<u>FY-2017 Cost</u>	<u>Notes</u>
*Fire- Station 2 Women's Restroom	\$ 142,000	Includes locker rm.
Planning- Union Primary School	\$ 60,000	Htg. system & more
*Planning- Commercial Site Pre-permitting	\$ 20,000	Econ. Development
Planning- Riverside Square Marketing Study	\$ 20,000	Econ. Development
Police- Station Expansion	\$ 30,000	First phase

DPW Public Buildings- Various projects	\$ 250,000	Discretion of DPW
Recreation- Rec Center Gym Floor Repair	\$ 8,000	Short-term repair
*Recreation- 20-24 Passenger Mini Bus	\$ 50,000	Transport prgm users
Senior Center- Generator	\$ 75,000	Power entire bldg
Schools- Middle schools auditorium seating	\$ 200,000	Replace all seating
Total	\$1,403,000	

CITY MANAGER – RECOMMENDED CAPITAL BUDGET FOR FISCAL YEAR 2017

Subsequent review by the City Manager and the City's Finance Department in coordination with the Planning Department has resulted in adjustments to the Planning Board-recommended FY 2017 Capital Budget based on an analysis of recent capital expenditures and a review of ongoing projects, and proposed projects for which funding is already available (see items above with asterisk *). The analysis resulted in the re-allocation of some funding to support additional worthwhile projects.

The City Manager's recommended Capital Budget for FY 2017 follows immediately at the top of the next page, with individual items listed following a more detailed description of each item. This is the budget that is now submitted for review by the City Council.

<u>City Manager Recommended Capital Project</u>	<u>FY-2017 Cost</u>	<u>Notes</u>
Three Fire Pumper Trucks (FY 2017 cost share)	\$ 247,967	Year 1 of 7
Planning- Union Primary School	\$ 60,000	Htg. system & more
Planning- Riverside Square Marketing Study	\$ 30,000	Econ. development

Senior Center- Generator	\$ 75,000	Power entire bldg
Schools- Middle schools auditorium seating	\$ 200,000	Replace all seating
Total	\$1,448,967	

Recommended Fiscal-Year 2017 Capital Improvement Projects in Detail

Fire Department

Three (3) New Fire Pumper Trucks \$247,967

The Fire Department is in the process of purchasing three 500-gallon pumper trucks through an approved purchase agreement. The trucks, part of an equipment replacement program, will be financed over a total of seven years at \$247,967 per year starting with Fiscal Year 2017.
Submitted by Chief of Department.

Planning Department

Union Primary Heating System \$60,000

The historic former Union Primary School on Pawtucket Avenue in Rumford is currently vacant and being used by the City for storage. The East Providence Arts Council has expressed a strong interest in the building, being a one-story ADA accessible building with multiple rooms varying in size, which taken as a whole would be ideal for provision of the programming they plan to offer. In addition, continuing the original use of the structure to serve as educational programming is compatible to the adjacent residential neighborhood and this section of

Pawtucket Avenue. The Arts Council and the City are working on a lease agreement for use of the building, but numerous capital improvements are needed including a heating system, various interior repairs, and a sprinkler system. The City will seek grant funding and other sources of funding for the needed capital improvements. The Planning Department recommends \$60,000 from the City capital budget to fund some of the work and to leverage alternative funding as these opportunities arise. *Submitted by the Director of Planning, the Community Development Coordinator and the Public Buildings Superintendent.*

Riverside Square Marketing Study \$30,000

Given significant resident and neighborhood association interest in the revitalization of Riverside Square, the Planning Department would like to commission a study to determine the best strategies to promote new investment for the Square's revitalization. This is part of a larger effort to improve the Square and the surrounding neighborhood. The entirety of Riverside will benefit by having an active business and social district at the Square. *Submitted by the Director of Planning and the Community Development Coordinator*

Police Department

Expansion of Police Station Facility \$30,000

The Department wishes, over the course of the upcoming 5 years, to significantly expand the station including office and other operational space along with their garage. The total cost of a complete expansion over a number of years is estimated to be around \$3 million. For now, the Department requests \$30,000 to support a platform or cover extending from the back of the facility, which could serve as a base for office expansion behind the building. In the meantime, the covered area would serve as an open garage to keep vehicles and other outdoor-stored equipment somewhat protected from the elements. *Submitted by the Deputy Chief of Police.*

Department of Public Works- Engineering

Booth Avenue / Riverside Slope Protection Study \$50,000

Booth Avenue runs parallel to the East Bay Bike Path on the east side of Bullocks Cove just north of Crescent View Ave. The slope adjacent to Booth Avenue is eroding due in part to the tidal current directed toward the slope from the Bike Path causeway. The capital improvement funds would be used to hire an engineering firm specializing in stabilizing steep slopes and coastal erosion prevention. The engineering firm would provide an analysis along with recommendations and/or plans that could be later used to hire a contractor to perform the work. If left as is, Booth Avenue will eventually collapse into the Cove. Other coastal areas in Riverside are also experiencing erosion and the City would ask the selected firm to look at those areas and advise regarding recommended actions.

Department of Public Works- Highway Division

<u>Various Projects Including Road Resurfacing</u>	<u>\$ 450,000</u>
--	-------------------

Given the large number of equipment needs of the Highway Division, and the necessity of funding to perform resurfacing of City streets on an ongoing basis, the Planning Department recommends an allotment of \$450,000 for projects to be used at the discretion of the Director of Public Works and the Highway Division Superintendent.

Projects Submitted by the Highway Superintendent.

Department of Public Works- Parks Division

<u>Riverside Recreation Area Improvements</u>	<u>\$48,000</u>
---	-----------------

Very strong community interest in this project has prompted an application from the Planning Department for a Rhode Island DEM Open Space grant in the amount of \$480,000 to begin major improvements to the facility including a large parking area for the facility. Currently, there is extremely minimal off-street parking which results in frequent heavy use of neighborhood streets for parking, which in turn creates bottlenecks and can make access difficult for public safety buildings. This is the first phase of a planned long-term project to improve this busy facility. The indicated request of \$48,000 in City funding represents the expected cash match for the grant. The actual grants have not yet been awarded by DEM, so the available funding for this project is not yet known. *Submitted by the Parks Division.*

Department of Public Works- Public Buildings Division

<u>Various Projects</u>	<u>\$250,000</u>
-------------------------	------------------

The Public Buildings Division also has a large number of specific capital needs as noted above. The Planning Department recommends an allotment of \$250,000 to execute projects on the Division's list to be used at the discretion of the Director of Public Works and the Public Buildings Superintendent. *Items submitted by the Public Buildings Superintendent.*

Recreation Department

<u>Gymnasium Floor Repair</u>	<u>\$8,000</u>
-------------------------------	----------------

The Rec Center's gym floor has deteriorated notably within the last year. The sub-floor is eroding resulting in "soft pockets" causing an obvious safety risk. Over the years, the sub floor has been shored up by Recreation and DPW staff but now the damage is beyond the scope of in house maintenance and requires the attention of a professional contractor. Repairs are recommended as opposed to a new floor installation, as the ultimate goal is to one day have a new stand-alone Rec Center as noted above. The Rec Center gymnasium is the only indoor facility the department has to operate its many sports programs and activities that require large spaces making repairs to the floor an urgent necessity. *Submitted by the Director of Recreation.*

Senior Center

Emergency Generator \$75,000

An identified need for the Senior Center is upgraded generator support. Optimally, the facility should have a generator of sufficient size to power the entire building in the case of an outage. In addition to enabling the continued provision of full service during power outage circumstances, there are two added benefits of this proposal:

- The Senior Center currently serves as a diabetes education center, but the Center could benefit economically by additionally serving as an immunization center for seniors. This would require that refrigeration of supplies could be guaranteed at all times, including times of grid power failure.
- Full generator support at the Senior Center enable the Center's use as a warming or cooling center in all times of extreme weather emergencies, and support its use as a small shelter in the case of a major weather emergency.

School Department

Replacement of Auditorium Seating- Martin and Riverside Middle Schools \$200,000

The Planning Board recommends the replacement of the auditorium seating at Martin and Riverside Middle Schools as described in detail above. The auditoriums, in addition to being used by students, staff and faculty, are arguably the most utilized portions of the respective schools by people outside of the immediate school community and are a revenue generators as rented for events by dance schools, youth groups, and other civic organizations. These facilities have also been used for public meetings where high public capacity is needed. *Submitted by the School Department Director of Finance on behalf of the Superintendent of Schools.*

Respectfully submitted,

Jeanne Boyle
Planning Director
