BID FORM

FLEET MAINTENANCE SERVICE PARTNER

BID OPENING THURSDAY, FEBRUARY 22, 2024 AT 11:00AM

- The contractor must employ an Emergency Vehicle Technician (EVT) who meets the requirements of NFPA 1910, 2024 edition (hereafter referred to as NFPA 1910). Documentation of this certification must be submitted with bid documents.
- The contractor must demonstrate a history of performing similar services and testing for a minimum of three (3) other fire departments. To prove such, complete contact information for a representative of each of these three (3) fire departments must be included with bid documents.
- The contractor must make every effort to reduce the amount of time that each apparatus is out of service for inspection, maintenance and performance testing. Means to accomplish this may include, but is not limited to, 1) conducting chassis preventative maintenance routines at the location where said apparatus is housed, 2) including apparatus pick-up and drop-off service along with the work being performed, 3) providing written assurance that apparatus taken out of service for routine preventative maintenance and testing will be returned on the same day, provided that vehicle is safe to be put back into service. All responsive bids will include all details about how efforts will be made to reduce out of service time of apparatus.
- Provide their hourly labor rate for light diagnostic work and repairs.
